Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

273	Model order determination using the Hankel matrix of impulse responses. 2011 , 24, 797-802		32
272	Least squares based iterative parameter estimation algorithm for multivariable controlled ARMA system modelling with finite measurement data. 2011 , 53, 1664-1669		39
271	Recursive least squares parameter estimation for non-uniformly sampled systems based on the data filtering. 2011 , 54, 315-324		39
270	Least squares based and gradient based iterative identification for Wiener nonlinear systems. 2011 , 91, 1182-1189		176
269	. 2011 ,		0

268	A new parameter estimation algorithm for non-uniformly multirate sampled-data systems. 2011,		
267	Gradient-based iterative parameter identification for multi-input multi-output OEMA-like models. 2011,		
266	Iterative solutions for general coupled matrix equations with real coefficients. 2011,		1
265	Parameter Estimation of the MISO Nonlinear System Based on Improved Particle Swarm Optimization. 2011, 130-134, 2563-2567		1
264	Parameter fitting for nonlinear systems. 2011,		2
263	Least-Squares Parameter Estimation Algorithm for a Class of Input Nonlinear Systems. 2012, 2012, 1-14		13
262	Gradient-based and least-squares-based iterative estimation algorithms for multi-input multi-output systems. <i>Proceedings of the Institution of Mechanical Engineers Part I: Journal of Systems and Control Engineering</i> , 2012, 226, 43-55	1	109
261	Partially coupled estimation algorithm for discrete-time multiple-input multiple-output systems. 2012,		
260	Separable gradient estimation algorithm for Hammerstein systems based on decompositions. 2012,		5
259	TS-RLS algorithm for pseudo-linear regressive models. 2012,		
258	Performance analysis of the auxiliary model-based least-squares identification algorithm for one-step state-delay systems. 2012, 89, 2019-2028		43
257	Maximum likelihood forgetting stochastic gradient estimation algorithm for Hammerstein CARARMA systems. 2012,		2
256	Iterative System Identification and Controller Design with an LMI-Based Framework: Windsurfer-Like Approach. 2012, 2012, 1-18		0
255	Two-stage iterative estimation algorithm for systems with colored noises using the data filtering. 2012,		1
254	Parameters Identification of Dual-Rate Hammerstein Systems Based on Finite Input Response Models. 2012, 204-208, 4742-4745		
253	Iterative Parameter Estimation for a Class of Multivariable Systems Based on the Hierarchical Identification Principle and the Gradient Search. <i>Circuits, Systems, and Signal Processing</i> , 2012, 31, 2167-2177		32
252	Fourth-order variants of Newton's method without second derivatives for solving non-linear equations. 2012, 29, 356-365		22
251	Recursive relations of the criterion functions for the recursive least squares algorithms. 2012,		

250	An iterative least squares estimation algorithm for controlled moving average systems based on matrix decomposition. 2012 , 25, 2332-2338		17
249	Identification of nonlinear MIMO block-oriented systems with moving average noises using gradient based and least squares based iterative algorithms. 2012 , 94, 22-31		22
248	Gradient based iterative identification of multivariable Hammerstein-Wiener models with application to a Steam Generator Boiler. 2012 ,		
247	Parameter identification of systems with preload nonlinearities based on the finite impulse response model and negative gradient search. <i>Applied Mathematics and Computation</i> , 2012 , 219, 2498-2505	2.7	11
246	Auxiliary model based least squares identification method for a state space model with a unit time-delay. 2012 , 36, 5773-5779		22
245	Least squares and stochastic gradient parameter estimation for multivariable nonlinear Box-Jenkins models based on the auxiliary model and the multi-innovation identification theory. 2012 , 29, 907-921		6
244	Recursive Gauss-Beidel algorithm for direct self-tuning control. <i>International Journal of Adaptive Control and Signal Processing</i> , 2012 , 26, 435-450	2.8	3
243	Multi-innovation stochastic gradient parameter estimation for input nonlinear controlled autoregressive models. <i>International Journal of Control, Automation and Systems</i> , 2012 , 10, 639-643	2.9	16
242	Two-stage least squares based iterative identification algorithm for controlled autoregressive moving average (CARMA) systems. 2012 , 63, 975-984		22
241	Observable state space realizations for multivariable systems. 2012 , 63, 1389-1399		10
240	Hierarchical least squares based iterative estimation algorithm for multivariable Box-Jenkins-like systems using the auxiliary model. <i>Applied Mathematics and Computation</i> , 2012 , 218, 5580-5587	2.7	15
239	Exponential stability of a class of networked control systems with time delays and packet dropouts. <i>Applied Mathematics and Computation</i> , 2012 , 218, 8887-8894	2.7	22
238	Gradient based estimation algorithm for Hammerstein systems with saturation and dead-zone nonlinearities. 2012 , 36, 238-243		48
237	Maximum likelihood least squares identification for systems with autoregressive moving average noise. 2012 , 36, 1842-1853		75
236	Recursive parameter identification for fermentation processes with the multiple model technique. 2012 , 36, 2275-2285		3
235	Iterative parameter identification methods for nonlinear functions. 2012 , 36, 2739-2750		46
234	Parameter and state estimation algorithm for single-input single-output linear systems using the canonical state space models. 2012 , 36, 3454-3463		21
233	Two recursive least squares parameter estimation algorithms for multirate multiple-input systems by using the auxiliary model. 2012 , 82, 777-789		9

232	A new approach for nonlinear process identification using orthonormal bases and ordinal splines. 2012 , 22, 375-389		13
231	Maximum likelihood least squares identification method for input nonlinear finite impulse response moving average systems. 2012 , 55, 442-450		95
230	Two-stage recursive least squares parameter estimation algorithm for output error models. 2012 , 55, 1151-1159		23
229	Multistage least squares based iterative estimation for feedback nonlinear systems with moving average noises using the hierarchical identification principle. <i>Nonlinear Dynamics</i> , 2013 , 73, 583-592	5	27
228	Filtering based recursive least squares algorithm for Hammerstein FIR-MA systems. <i>Nonlinear Dynamics</i> , 2013 , 73, 1045-1054	5	21
227	Gradient-based parameter estimation for input nonlinear systems with ARMA noises based on the auxiliary model. <i>Nonlinear Dynamics</i> , 2013 , 72, 865-871	5	24
226	Intelligent Computing for Sustainable Energy and Environment. <i>Communications in Computer and Information Science</i> , 2013 ,	0.3	1
225	Auxiliary model based parameter estimation for dual-rate output error systems with colored noise. 2013 , 37, 4051-4058		65
224	Decomposition based fast least squares algorithm for output error systems. 2013 , 93, 1235-1242		121
223	Gradient-based iterative identification for MISO Wiener nonlinear systems: Application to a glutamate fermentation process. 2013 , 26, 886-892		19
222	Fuzzy Multi-model Switching H-Infinity Control for Helicopters in a Full Envelope. <i>Circuits, Systems, and Signal Processing</i> , 2013 , 32, 2185-2197	2.2	5
221	Parameter and State Estimation Algorithm for a State Space Model with a One-unit State Delay. <i>Circuits, Systems, and Signal Processing</i> , 2013 , 32, 2267-2280	2.2	11
220	An Auxiliary-Model-Based Stochastic Gradient Algorithm for Dual-Rate Sampled-Data Box-Jenkins Systems. <i>Circuits, Systems, and Signal Processing</i> , 2013 , 32, 2475-2485	2.2	9
219	Computation of matrix exponentials of special matrices. <i>Applied Mathematics and Computation</i> , 2013 , 223, 311-326	2.7	10
218	A least squares identification algorithm for a state space model with multi-state delays. 2013 , 26, 748-753		15
217	Nonlinear Model Algorithmic Control of a pH Neutralization Process. 2013 , 21, 395-400		13
216	Coupled-least-squares identification for multivariable systems. <i>IET Control Theory and Applications</i> , 2013 , 7, 68-79	2.5	154
215	Newton iterative identification for a class of output nonlinear systems with moving average noises. <i>Nonlinear Dynamics</i> , 2013 , 74, 21-30	5	30

214	Auxiliary model based least squares parameter estimation algorithm for feedback nonlinear systems using the hierarchical identification principle. <i>Journal of the Franklin Institute</i> , 2013 , 350, 3248-3259		15
213	Performance Analysis of the Auxiliary Model-Based Stochastic Gradient Parameter Estimation Algorithm for State-Space Systems with One-Step State Delay. <i>Circuits, Systems, and Signal Processing</i> , 2013 , 32, 585-599	2.2	55
212	Identification of Hammerstein model using cubic splines and FIR filtering. 2013 ,		7
211	Least-squares-based iterative identification algorithm for Hammerstein nonlinear systems with non-uniform sampling. 2013 , 90, 1524-1534		11
210	A multi-innovation stochastic gradient parameter estimation algorithm for controlled autoregressive ARMA systems based on the data filtering. 2013 ,		
209	Recursive Relations of the Cost Functions for the Least-Squares Algorithms for Multivariable Systems. <i>Circuits, Systems, and Signal Processing</i> , 2013 , 32, 83-101	2.2	12
208	Gradient-based and least-squares-based iterative algorithms for Hammerstein systems using the hierarchical identification principle. <i>IET Control Theory and Applications</i> , 2013 , 7, 176-184	2.5	178
207	Data filtering based recursive least squares algorithm for Hammerstein systems using the key-term separation principle. <i>Information Sciences</i> , 2013 , 222, 203-212	7.7	74
206	Signal modeling using the gradient search. 2013 , 26, 807-813		8
205	Parameter estimation for a multivariable state space system with d-step state-delay. <i>Journal of the Franklin Institute</i> , 2013 , 350, 724-736	4	13
204	Three-stage recursive least squares parameter estimation for controlled autoregressive autoregressive systems. 2013 , 37, 7489-7497		7
203	An iterative numerical algorithm for modeling a class of Wiener nonlinear systems. 2013 , 26, 487-493		16
202	A novel APSO-aided maximum likelihood identification method for Hammerstein systems. <i>Nonlinear Dynamics</i> , 2013 , 73, 449-462	5	40
201	Gradient based iterative parameter identification for Wiener nonlinear systems. 2013 , 37, 8203-8209		22
200	Iterative and recursive least squares estimation algorithms for moving average systems. 2013 , 34, 12-19		57
199	Iterative identification algorithm for Wiener nonlinear systems using the Newton method. 2013 , 37, 6584-6591		30
198	Parameter estimation methods for nonlinear systems. <i>Applied Mathematics and Computation</i> , 2013 , 219, 4278-4287	2.7	7
197	Parameter estimation for Hammerstein CARARMA systems based on the Newton iteration. 2013 , 26, 91-96		107

196	Multi-innovation stochastic gradient algorithms for dual-rate sampled systems with preload nonlinearity. 2013 , 26, 124-129		16
195	Convergence properties of the least squares estimation algorithm for multivariable systems. 2013 , 37, 476-483		34
194	A decomposition based least squares iterative parameter estimation algorithm for controlled autoregressive autoregressive moving average systems. 2013 ,		
193	Recursive Identification of Nonlinear Cascade Systems With Time-Varying General Input Backlash. 2013 , 135,		7
192	Identification of Hammerstein systems using key-term separation principle, auxiliary model and improved particle swarm optimisation algorithm. <i>IET Signal Processing</i> , 2013 , 7, 766-773	1.7	17
191	Multi-Innovation Stochastic Gradient Identification Algorithm for Hammerstein Controlled Autoregressive Autoregressive Systems Based on the Key Term Separation Principle and on the Model Decomposition. 2013 , 2013, 1-7		3
190	Recursive Least-Squares Estimation for Hammerstein Nonlinear Systems with Nonuniform Sampling. 2013 , 2013, 1-8		4
189	Least-Squares-Based Iterative Identification Algorithm for Wiener Nonlinear Systems. 2013 , 2013, 1-6		6
188	Interactive parameter estimation for output error moving average systems. 2013 , 35, 34-43		13
187	Recursive identification for Hammerstein systems with bounded noise. 2013 ,		1
186	Finite iterative algorithm for solving coupled Lyapunov equations appearing in continuous-time Markov jump linear systems. <i>International Journal of Systems Science</i> , 2013 , 44, 2082-2093	2.3	11
185	Decomposition based recursive least squares parameter estimation for Hammerstein nonlinear controlled autoregressive systems. 2013 ,		
184	A two-stage least squares based iterative parameter estimation algorithm for feedback nonlinear systems based on the model decomposition. 2013 ,		
183	Least squares based iterative identification algorithm for output error autoregressive systems using the decomposition technique and the data filtering. 2013 ,		
182	An industrial tool for identification and control of nonlinear valve characteristics*. 2013 , 46, 75-83		1
181	Parameter and state estimator for state space models. 2014 , 2014, 106505		2
180	Filtering Based Recursive Least Squares Algorithm for Multi-Input Multioutput Hammerstein Models. 2014 , 2014, 1-10		
179	Iterative Solutions of a Set of Matrix Equations by Using the Hierarchical Identification Principle. 2014 , 2014, 1-10		2

178	Two Identification Methods for Dual-Rate Sampled-Data Nonlinear Output-Error Systems. 2014 , 2014, 1-10		2
177	A novel particle swarm optimization based robust H-infinity control for rotorcrafts. 2014 , 31, 726-741		3
176	Evolutionary identification algorithm for Hammerstein system and its convergence analysis. 2014 ,		
175	Identification of Hammerstein MIMO systems using the key-term separation principle. 2014 ,		
174	Time delay estimation for a class of block-oriented nonlinear models. 2014 ,		
173	Nuclear norm subspace identification method for Hammerstein system identification. 2014 ,		
172	Nonlinear model predictive control of pneumatic conveying and drying process. 2014 ,		
171	Hierarchical gradient parameter estimation algorithm for Hammerstein nonlinear systems using the key term separation principle. <i>Applied Mathematics and Computation</i> , 2014 , 247, 1202-1210	2.7	60
170	Least squares identification method for differential equations of gene regulatory networks. 2014 ,		
169	Recursive identification for Hammerstein systems with hybrid static nonlinearities and asymmetric ARX. 2014 ,		
168	Recursive identification of Hammerstein models. 2014 ,		1
167	Adaptive strategies for parameter estimation of Box-Jenkins systems. <i>IET Signal Processing</i> , 2014 , 8, 968-980	1.7	24
166	Least-Squares Based and Gradient Based Iterative Parameter Estimation Algorithms for a Class of Linear-in-Parameters Multiple-Input Single-Output Output Error Systems. 2014 , 2014, 1-8		0
165	Data Filtering Based Recursive Least Squares Algorithm for Two-Input Single-Output Systems with Moving Average Noises. 2014 , 2014, 1-8		1
164	A property of the eigenvalues of the symmetric positive definite matrix and the iterative algorithm for coupled Sylvester matrix equations. <i>Journal of the Franklin Institute</i> , 2014 , 351, 340-357	4	56
163	A filtering based recursive least squares estimation algorithm for pseudo-linear auto-regressive systems. <i>Journal of the Franklin Institute</i> , 2014 , 351, 1801-1809	4	8
