Risk assessment of moderate to severe alcohol withdrawal--predictors for seizures and delirium tremens in the course of withdrawal

DOI: 10.1093/alcalc/agr053

Alcohol and Alcoholism, 2011, 46, 427-33.

Source: <https://exaly.com/paper-pdf/51832087/citation-report.pdf>

Version: 2024-04-09

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
