

CITATION REPORT

List of articles citing

PITX2 insufficiency leads to atrial electrical and structural remodeling linked to arrhythmogenesis

DOI: 10.1161/circgenetics.110.958116

Circulation: Cardiovascular Genetics, 2011, 4, 269-79.

Source: <https://exaly.com/paper-pdf/51856624/citation-report.pdf>

Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

- 15 Atrial AMP-activated protein kinase is critical for prevention of dysregulation of electrical excitability and atrial fibrillation.. **2022**, 7, 1
- 14 Pitx2 Differentially Regulates the Distinct Phases of Myogenic Program and Delineates Satellite Cell Lineages During Muscle Development. 10,
- 13 PI3K(p110) is a determinant and gene therapy for atrial enlargement in atrial fibrillation. 0
- 12 Regulation of cardiac ion channels by transcription factors: Looking for new opportunities of druggable targets for the treatment of arrhythmias. **2022**, 204, 115206 0
- 11 Catheter ablation for treatment of bradycardia-tachycardia syndrome: is it time to consider it the therapy of choice? A systematic review and meta-analysis. **2022**, 23, 646-654 0
- 10 The Long Noncoding RNA Playrr Regulates Pitx2 Dosage and Protects Against Cardiac Arrhythmias. 0

- 9 Atrial fibrillation: epigenetic aspects and role of sodium-glucose cotransporter 2 inhibitors. **2022**, 106591 ○
- 8 Single-cell transcriptomic analysis identifies murine heart molecular features at embryonic and neonatal stages. **2022**, 13, ○
- 7 Pitx2c deficiency confers cellular electrophysiological hallmarks of atrial fibrillation to isolated atrial myocytes. **2023**, 162, 114577 ○
- 6 PITX2 Knockout Induces Key Findings of Electrical Remodeling as Seen in Persistent Atrial Fibrillation. **2023**, 16, ○
- 5 Sinus node dysfunction and atrial fibrillation Relationships, clinical phenotypes, new mechanisms, and treatment approaches. **2023**, 86, 101890 ○
- 4 PITX2 induction leads to impaired cardiomyocyte function in arrhythmogenic cardiomyopathy. **2023**, 18, 749-764 ○
- 3 Pulmonary Vein Myocardial Sleeve Length and Its Association With Sex and 4q25/PITX2 Genotype. **2023**, ○
- 2 Association between sick sinus syndrome and atrial fibrillation: A systematic review and meta-analysis. **2023**, ○
- 1 Genome and atrial fibrillation. ○
