

Freight Generation, Freight Trip Generation, and Perils

Transportation Research Record

2224, 68-81

DOI: 10.3141/2224-09

Citation Report

#	ARTICLE	IF	CITATIONS
1	Estimated Generation of Freight Trips Based on Land Use. Transportation Research Record, 2012, 2269, 65-72.	1.0	66
2	Distribution Analysis of Freight Transportation with Gravity Model and Genetic Algorithm. Transportation Research Record, 2012, 2269, 1-10.	1.0	9
3	Transferability of Freight Trip Generation Models. Transportation Research Record, 2013, 2379, 1-8.	1.0	70
4	Comparative Analyses of Stated Behavioral Responses to Off-Hour Delivery Policies. Transportation Research Record, 2013, 2379, 18-28.	1.0	10
5	Assessment of Exposure Proxies for Macroscopic Road Safety Prediction. Transportation Research Record, 2013, 2386, 81-94.	1.0	4
6	Parking in the City. Transportation Research Record, 2013, 2379, 46-56.	1.0	112
7	Structural Commodity Generation Model that Uses Public Data. Transportation Research Record, 2013, 2378, 73-83.	1.0	14
8	Analysis of Factors that Affect the Frequency of Truck Parking Violations in Urban Areas. Transportation Research Record, 2014, 2411, 20-26.	1.0	28
9	City logistics long-term planning: simulation of shopping mobility and goods restocking and related support systems. International Journal of Urban Sciences, 2014, 18, 201-217.	1.3	23
10	Freight Generation and Freight Trip Generation Models. , 2014, , 43-63.		24
11	The New York City Off-hour Delivery Project: Lessons for City Logistics. Procedia, Social and Behavioral Sciences, 2014, 125, 36-48.	0.5	56
12	An estimation of freight flow using secondary data: a case study in Belo Horizonte (Brazil). International Journal of Urban Sciences, 2014, 18, 291-307.	1.3	6
13	A location-based accessibility analysis to estimate the suitability of urban consolidation facilities. International Journal of Urban Sciences, 2014, 18, 166-185.	1.3	35
14	Analysis of Built Environment Features and their Effects on Freight Activities. Procedia, Social and Behavioral Sciences, 2014, 125, 28-35.	0.5	4
15	Identifying Freight Intermediaries. Transportation Research Record, 2015, 2478, 48-56.	1.0	24
16	Deliveries to residential units: A rising form of freight transportation in the U.S.. Transportation Research Part C: Emerging Technologies, 2015, 58, 46-55.	3.9	37
17	How to Translate Economic Activity into Freight Transportation?. Transportation Research Procedia, 2015, 8, 155-167.	0.8	11
18	Utilizing urban form characteristics in urban logistics analysis: a case study in Lisbon, Portugal. Journal of Transport Geography, 2015, 42, 57-71.	2.3	37
