312	Meta-Analysis of Public RNA Sequencing Data Revealed Potential Key Genes Associated with Reproductive Division of Labor in Social Hymenoptera and Termites. International Journal of Molecular Sciences, 2023, 24, 8353.	4.1	2
313	Why Biotechnology Needed in Insects?. Learning Materials in Biosciences, 2023, , 17-44.	0.4	1
314	Tracking Adaptive Pathways of Invasive Insects: Novel Insight from Genomics. International Journal of Molecular Sciences, 2023, 24, 8004.	4.1	1
316	Pest categorisation of Solenopsis invicta. EFSA Journal, 2023, 21, .	1.8	2
317	Transcriptomic Analysis Reveals the Impact of the Biopesticide Metarhizium anisopliae on the Immune System of Major Workers in Solenopsis invicta. Insects, 2023, 14, 701.	2.2	0
318	Genome-wide DNA methylation patterns in bumble bee (Bombus vosnesenskii) populations from spatial-environmental range extremes. Scientific Reports, 2023, 13, .	3.3	3
319	Effects of hTERT transfection on the telomere and telomerase of Periplaneta americana cells in vitro. AMB Express, 2023, 13, .	3.0	1
320	The Effect of Botanical Pesticides Azadirachtin, Celangulin, and Veratramine Exposure on an Invertebrate Species Solenopsis invicta (Hymenoptera: Formicidae), Toxins, 2024, 16, 6,	3.4	0
