

CITATION REPORT

List of articles citing

**Innate immunity in human newborn infants:
prematurity means more than immaturity**

DOI: 10.3109/14767058.2010.482605

**Journal of Maternal-Fetal and Neonatal Medicine, 2011,
24, 25-31.**

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
176	The influence of developmental age on the early transcriptomic response of children with septic shock. 2011 , 17, 1146-56		165
175	Evolutionary-developmental perspectives on immune system interactions among the pregnant woman, placenta, and fetus, and responses to sexually transmitted infectious agents. 2011 , 1230, 25-47		21
174	Newborn screening for primary immunodeficiencies: beyond SCID and XLA. 2011 , 1246, 118-30		34
173	Early life environment and developmental immunotoxicity in inflammatory dysfunction and disease. 2011 , 93, 1463-1485		20
172	Development of newborn and infant vaccines. <i>Science Translational Medicine</i> , 2011 , 3, 90ps27	17.5	50
171	ISG15 is critical in the control of Chikungunya virus infection independent of UBE1L mediated conjugation. 2011 , 7, e1002322		125
170	Surfactant proteins A and D in pulmonary diseases of preterm infants. 2012 , 10, 573-84		27
169	Histologic chorioamnionitis is associated with reduced risk of late-onset sepsis in preterm infants. 2012 , 129, e134-41		89
168	Facultative to strict anaerobes ratio in the preterm infant microbiota: a target for intervention?. 2012 , 3, 583-8		47
167	Innate immune function by Toll-like receptors: distinct responses in newborns and the elderly. 2012 , 37, 771-83		374
166	Prolonged exclusive breastfeeding, autumn birth and increased gestational age are associated with lower risk of fever in children with hand, foot, and mouth disease. 2012 , 31, 2197-202		10
165	Developmental physiology of late and moderate prematurity. 2012 , 17, 126-31		34
164	TGF- β s responsible for NK cell immaturity during ontogeny and increased susceptibility to infection during mouse infancy. 2012 , 13, 843-50		95
163	Very low birth weight neonates who survive early-onset sepsis do not have an increased risk of developing late-onset sepsis. 2012 , 88, 905-9		12
162	The developing human preterm neonatal immune system: a case for more research in this area. 2012 , 145, 61-8		109
161	A neonatal model of intravenous Staphylococcus epidermidis infection in mice . <i>PLoS ONE</i> , 2012 , 7, e43897		28
160	Impaired NK cell antiviral cytokine response against influenza virus in small-for-gestational-age neonates. 2013 , 10, 437-43		22

159	Early sepsis does not increase the risk of late sepsis in very low birth weight neonates. 2013 , 162, 942-8.e1-3		24
158	Immune response to vaccine adjuvants during the first year of life. <i>Vaccine</i> , 2013 , 31, 2500-5	4.1	47
157	V β V β -T lymphocytes have impaired antiviral function in small-for-gestational-age and preterm neonates. 2013 , 10, 253-60		6
156	Phagocytosis of neonatal pathogens by peripheral blood neutrophils and monocytes from newborn preterm and term infants. <i>Pediatric Research</i> , 2013 , 74, 503-10	3.2	39
155	Genetic and epigenetic susceptibility to early life infection. 2013 , 26, 241-7		10
154	Opioids and clonidine modulate cytokine production and opioid receptor expression in neonatal immune cells. 2013 , 33, 374-82		14
153	The immune consequences of preterm birth. 2013 , 7, 79		187
152	The immunologic basis for severe neonatal herpes disease and potential strategies for therapeutic intervention. 2013 , 2013, 369172		33
151	Neonatal sepsis due to coagulase-negative staphylococci. 2013 , 2013, 586076		97
150	Immune vulnerability of infants to tuberculosis. 2013 , 2013, 781320		42
149	Predictors of severity for postnatal cytomegalovirus infection in preterm infants and implications for treatment. 2014 , 12, 1345-55		15
148	Maternal-neonatal transfusion compatibility irrespective of ABO mismatch--a prospective observational study. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2014 , 27, 397-401	2	2
147	NOD1 and NOD2 expression and function in very preterm infant mononuclear cells. 2014 , 103, e212-8		14
146	Reduced NK cell percentage at birth is associated with late onset infection in very preterm neonates. 2014 , 80, 50-6		11
145	Early intervention post-hospital discharge for infants born preterm. 2014 , 94, 1211-9		6
144	Challenges in vaccination of neonates, infants and young children. <i>Vaccine</i> , 2014 , 32, 3886-94	4.1	28
143	Neurodevelopmental impairment in preterm infants with late-onset infection: not only in extremely preterm infants. 2014 , 173, 1017-23		2
142	Infant toxicology: state of the science and considerations in evaluation of safety. 2014 , 70, 68-83		24

141	Complement profile in neonates of different gestational ages. 2014 , 79, 276-81		44
140	Effects of blue light phototherapy on DNA integrity in preterm newborns. 2014 , 141, 283-7		5
139	Phenotypic differences in leucocyte populations among healthy preterm and full-term newborns. 2014 , 80, 57-70		24
138	The induction of breast milk pertussis specific antibodies following gestational tetanus-diphtheria-acellular pertussis vaccination. <i>Vaccine</i> , 2014 , 32, 5632-7	4.1	34
137	A prime time for trained immunity: innate immune memory in newborns and infants. <i>Neonatology</i> , 2014 , 105, 136-41	4	55
136	Maturation of innate responses to mycobacteria over the first nine months of life. 2014 , 192, 4833-43		23
135	The effect of timing of maternal tetanus, diphtheria, and acellular pertussis (Tdap) immunization during pregnancy on newborn pertussis antibody levels - a prospective study. <i>Vaccine</i> , 2014 , 32, 5787-93 ^{4.1}	4.1	109
134	Infection-induced inflammation and cerebral injury in preterm infants. 2014 , 14, 751-762		170
133	Microbial programming of health and disease starts during fetal life. 2015 , 105, 265-77		77
132	Immune System: Early Ontogeny. 2015 , 1-8		
131	New means to assess neonatal inflammatory brain injury. 2015 , 12, 180		27
130	Nursing diagnoses and interventions for a child after cardiac surgery in an intensive care unit. 2015 , 68, 155-60		3
129	Biological role of mannose binding lectin: From newborns to centenarians. 2015 , 451, 78-81		20
