

CITATION REPORT

List of articles citing

Natural antibiotic resistance and contamination by antibiotic resistance determinants: the two ages in the evolution of resistance to antimicrobials

DOI: 10.3389/fmicb.2012.00001

Frontiers in Microbiology, 2012, 3, 1.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
