

CITATION REPORT

List of articles citing

Impacts and Implications of Major Changes Caused by the Three Gorges Dam in the Middle Reaches of the Yangtze River, China

DOI: 10.1007/s11269-012-0076-3

Water Resources Management, 2012, 26, 3367-3378.

Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
