Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
124	Future changes in Mekong River hydrology: impact of climate change and reservoir operation on discharge. <i>Hydrology and Earth System Sciences</i> , 2012 , 16, 4603-4619	5.5	194
123	Analyzing Economic Tradeoffs of Water Use in the Nam Ngum River Basin, Lao PDR. 2012 ,		2
122	Understanding the impact of hydropower developments in the context of upstream-downstream relations in the Mekong river basin. 2013 , 8, 565-584		120
121	Spatiotemporal influences of ENSO on precipitation and flood pulse in the Mekong River Basin. 2013 , 476, 154-168		114
120	Dams and disease triggers on the lower Mekong river. 2013 , 7, e2166		27
119	Dams on Mekong tributaries as significant contributors of hydrological alterations to the Tonle Sap Floodplain in Cambodia. <i>Hydrology and Earth System Sciences</i> , 2014 , 18, 5303-5315	5.5	69
118	Hydrologic Simulations Driven by Satellite Rainfall to Study the Hydroelectric Development Impacts on River Flow. 2014 , 6, 3631-3651		10
117	Using Reanalysis and Remotely Sensed Temperature and Precipitation Data for Hydrological Modeling in Monsoon Climate: Mekong River Case Study. 2014 , 15, 1532-1545		62
116	Are hydropower and irrigation development complements or substitutes? The example of the Nam Ngum River in the Mekong Basin. 2014 , 39, 649-670		25
115	Impoundment Effects of the Three-Gorges-Dam on Flow Regimes in Two China's Largest Freshwater Lakes. <i>Water Resources Management</i> , 2014 , 28, 5111-5124	3.7	75
114	Cumulative Effect of Cascade Hydropower Development on Water Quantity Process in the Upper Wu River of Western China. 2014 , 955-959, 2973-2978		
113	Recent morphological changes in the Mekong and Bassac river channels, Mekong delta: The marked impact of river-bed mining and implications for delta destabilisation. 2014 , 224, 177-191		112
112	A Cooperative Game Analysis of Transboundary Hydropower Development in the Lower Mekong: Case of the 3S Sub-basins. <i>Water Resources Management</i> , 2014 , 28, 3417-3437	3.7	12
111	Games to Create Awareness and Design Policies for Transboundary Cooperation in River Basins: Lessons from the Shaliva Game of the Mekong River Commission. <i>Water Resources Management</i> , 2014 , 28, 1431-1447	3.7	28
110	Hydrological Modeling of Large river Basins: How Much is Enough?. <i>Water Resources Management</i> , 2014 , 28, 2695-2730	3.7	61
109	Assessment of Contributions of Climatic Variation and Human Activities to Streamflow Changes in the Lancang River, China. <i>Water Resources Management</i> , 2014 , 28, 2953-2966	3.7	29
108	The geomorphic evolution and sediment balance of the lower Rhône River (southern France) over the last 130years: Hydropower dams versus other control factors. 2014 , 219, 27-41		47

107	Water balance analysis for the Tonle Sap Lake floodplain system. 2014 , 28, 1722-1733		125
106	Transboundary Water Politics in the Developing World. 2015 ,		65
105	China's southbound transboundary river basins: a case of asymmetry. 2015 , 40, 113-138		22
104	Glacier Changes in the Lancang River Basin, China, between 1968-1975 and 2005-2010. 2015 , 47, 335-344		7
103	Future sediment dynamics in the Mekong Delta floodplains: Impacts of hydropower development, climate change and sea level rise. 2015 , 127, 22-33		109
102	Environmental consequences of damming the mainstream Lancang-Mekong River: A review. 2015 , 146, 77-91		133
101	Climate-Induced Flow Regime Alterations and their Implications for the Lancang River, China. <i>River Research and Applications</i> , 2015 , 31, 422-432	2.3	13
100	Model-Based Assessment of Water, Food, and Energy Trade-Offs in a Cascade of Multipurpose Reservoirs: Case Study of the Sesan Tributary of the Mekong River. 2015 , 141, 05014007		20
99	Mekong River flow and hydrological extremes under climate change. <i>Hydrology and Earth System Sciences</i> , 2016 , 20, 3027-3041	5.5	102
98	Hydrologic Alteration Associated with Dam Construction in a Medium-Sized Coastal Watershed of Southeast China. 2016 , 8, 317		24
97	Assessment of the Impact of Reservoirs in the Upper Mekong River Using Satellite Radar Altimetry and Remote Sensing Imageries. 2016 , 8, 367		11
96	Effect of Proposed Large Dams on Water Flows and Hydropower Production in the Sekong, Sesan and Srepok Rivers of the Mekong Basin. <i>River Research and Applications</i> , 2016 , 32, 2095-2108	2.3	37
