

# CITATION REPORT

List of articles citing

**A customized self-assembling peptide hydrogel for dental pulp tissue engineering**

**DOI: 10.1089/ten.tea.2011.0222**

**Tissue Engineering - Part A, 2012, 18, 176-84.**

**Source:** <https://exaly.com/paper-pdf/53672008/citation-report.pdf>

**Version:** 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
219	Stem/progenitor cell-mediated de novo regeneration of dental pulp with newly deposited continuous layer of dentin in an in vivo model. <i>Tissue Engineering - Part A</i> , <b>2010</b> , 16, 605-15	3.9	452
218	Dentin conditioning codetermines cell fate in regenerative endodontics. <b>2011</b> , 37, 1536-41		202
217	Nanostructured, self-assembling peptide K5 blocks TNF- $\alpha$ and PGE $_2$ production by suppression of the AP-1/p38 pathway. <b>2012</b> , 2012, 489810		19
216	Molecular fabrications of smart nanobiomaterials and applications in personalized medicine. <b>2012</b> , 64, 1459-76		57
215	Microfluidic fabrication of self-assembled peptide-polysaccharide microcapsules as 3D environments for cell culture. <b>2012</b> , 13, 4039-48		24
214	Experimental formation of dentin-like structure in the root canal implant model using cryopreserved swine dental pulp progenitor cells. <b>2012</b> , 38, 913-9		47
213	Stem cells in the face: tooth regeneration and beyond. <b>2012</b> , 11, 291-301		88
212	From short peptides to nanofibers to macromolecular assemblies in biomedicine. <b>2012</b> , 30, 593-603		162
211	Self-assembly in nature: using the principles of nature to create complex nanobiomaterials. <b>2013</b> , 5, 582-612		195
210	Preliminary study on dental pulp stem cell-mediated pulp regeneration in canine immature permanent teeth. <b>2013</b> , 39, 195-201		45
