

# CITATION REPORT

List of articles citing

A comparison of the functionality and in vivo phenotypic stability of cartilaginous tissues engineered from different stem cell sources

DOI: 10.1089/ten.tea.2011.0544

Tissue Engineering - Part A, 2012, 18, 1161-70.

**Source:** <https://exaly.com/paper-pdf/53724532/citation-report.pdf>

**Version:** 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
