

CITATION REPORT

List of articles citing

New insights of T cells in the pathogenesis of psoriasis

DOI: 10.1038/cmi.2012.15

Cellular and Molecular Immunology, 2012, 9, 302-9.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
258	Psoriasis is associated with low serum levels of hydrogen sulfide, a potential anti-inflammatory molecule. 2012 , 228, 325-32		25
257	The psoriatic keratinocytes. 2012 , 7, 473-481		10
256	Emerging therapies for the treatment of psoriasis. 2012 , 2, 16		9
255	Reduction of CD18 promotes expansion of inflammatory Γ cells collaborating with CD4+ T cells in chronic murine psoriasiform dermatitis. 2013 , 191, 5477-88		20
254	The IL-23/T17 pathogenic axis in psoriasis is amplified by keratinocyte responses. 2013 , 34, 174-81		317
253	Functions of the aryl hydrocarbon receptor in the skin. 2013 , 35, 677-91		106
252	Abatacept in psoriatic arthritis: Case report and short review. 2013 , 4, S29-32		18
251	Molecular mechanisms in psoriasis: historical perspective and current pathogenesis. 2013 , 8, 1-3		
250	Altered redox status in the blood of psoriatic patients: involvement of NADPH oxidase and role of anti-TNF- Γ therapy. 2013 , 18, 100-6		51
249	Lifting the silver flakes: the pathogenesis and management of chronic plaque psoriasis. 2013 , 2013, 168321		27
248	Th17 cells carrying TCR recognizing epidermal autoantigen induce psoriasis-like skin inflammation. 2013 , 191, 3065-72		35
247	Calcium--a central regulator of keratinocyte differentiation in health and disease. 2014 , 24, 650-61		88
246	Evaluation of the association between CD143 gene polymorphism and psoriasis. 2014 , 70, 1617-23		2
245	The immunological and genetic aspects in psoriasis. 2014 , 1,		5
244	Immunology of psoriasis. 2014 , 32, 227-55		891
243	The new era for the treatment of psoriasis and psoriatic arthritis: perspectives and validated strategies. 2014 , 13, 64-9		43
242	Immunosuppressive activity of an aqueous Viola tricolor herbal extract. 2014 , 151, 299-306		53

241	Psoriasis. 2014 , 4,	162
240	Equisetum arvense (common horsetail) modulates the function of inflammatory immunocompetent cells. 2014 , 14, 283	22
239	Effects of ponesimod, a selective S1P1 receptor modulator, on the pharmacokinetics of a hormonal combination contraceptive. 2014 , 70, 287-93	15
238	Cardiovascular risk and psoriasis: beyond the traditional risk factors. 2014 , 127, 12-8	53
237	Effects of ethnicity and sex on the pharmacokinetics and pharmacodynamics of the selective sphingosine-1-phosphate receptor 1 modulator ponesimod: a clinical study in Japanese and Caucasian subjects. 2014 , 94, 223-9	9
236	Anti-TNF agents for paediatric psoriasis. 2015 , CD010017	9
235	The effect of dimethyl fumarate on gene expression and the level of cytokines related to different T helper cell subsets in peripheral blood mononuclear cells of patients with psoriasis. 2015 , 54, e254-60	29
234	Interventions for guttate psoriasis. 2015 ,	1
233	Apremilast in the treatment of moderate-to-severe plaque psoriasis: results from the ESTEEM studies. 2015 , 5, 777-791	1
232	Mass balance, pharmacokinetics and metabolism of the selective S1P1 receptor modulator ponesimod in humans. 2015 , 45, 139-49	12
231	CD47-dependent regulation of H β biosynthesis and signaling in T cells. 2015 , 555, 145-68	14
230	Co-signaling molecules in psoriasis pathogenesis: implications for targeted therapy. 2015 , 76, 95-101	2
229	Interleukin-12: Functional activities and implications for disease. 2015 , 26, 559-68	118
228	The role of chemokines in cutaneous immunosurveillance. 2015 , 93, 337-46	20
227	Therapeutic and immunomodulatory effects of glucosamine in combination with low-dose cyclosporine a in a murine model of imiquimod-induced psoriasis. 2015 , 756, 43-51	15
226	Biological therapy induces expression changes in Notch pathway in psoriasis. 2015 , 307, 863-73	12
225	Circulating levels of chemokines in psoriasis. 2015 , 48, 57-60	12
224	Vitamin D and the skin: Focus on a complex relationship: A review. 2015 , 6, 793-804	89

223	Disruption of circulating CD4+ T-lymphocyte subpopulations in psoriasis patients is ameliorated by narrow-band UVB therapy. 2015 , 71, 499-507		8
