

CITATION REPORT

List of articles citing

Comparative metagenomic, phylogenetic and physiological analyses of soil microbial communities across nitrogen gradients

DOI: 10.1038/ismej.2011.159
ISME Journal, 2012, 6, 1007-17.

Source: <https://exaly.com/paper-pdf/53913746/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
1259	The Effect of Tillage System and Crop Rotation on Soil Microbial Diversity and Composition in a Subtropical Acrisol. 2012 , 4, 375-395		69
1258	Geothrix fermentans secretes two different redox-active compounds to utilize electron acceptors across a wide range of redox potentials. 2012 , 78, 6987-95		50
1257	Microbial control over carbon cycling in soil. 2012 , 3, 348		674
1256	Cross-biome metagenomic analyses of soil microbial communities and their functional attributes. 2012 , 109, 21390-5		956
1255	Impact of short-term acidification on nitrification and nitrifying bacterial community dynamics in soilless cultivation media. 2012 , 78, 6576-82		29
1254	Microbial 16S rRNA Ion Tag and community metagenome sequencing using the Ion Torrent (PGM) Platform. 2012 , 91, 80-8		143
1253	Relating Phylogenetic and Functional Diversity among Denitrifiers and Quantifying their Capacity to Predict Community Functioning. 2012 , 3, 209		45
1252	Modeling microbial community structure and functional diversity across time and space. 2012 , 332, 91-8		33
1251	Responses of soil bacterial and fungal communities to extreme desiccation and rewetting. <i>ISME Journal</i> , 2013 , 7, 2229-41	11.9	471
1250	How species richness and total abundance constrain the distribution of abundance. 2013 , 16, 1177-85		47
1249	Shotgun metagenomic analysis of metabolic diversity and microbial community structure in experimental vernal pools subjected to nitrate pulse. 2013 , 13, 78		5
1248	Long-term phosphorus fertilisation increased the diversity of the total bacterial community and the phoD phosphorus mineraliser group in pasture soils. 2013 , 49, 661-672		174
1247	Effect of agricultural land use change on community composition of bacteria and ammonia oxidizers. 2013 , 13, 1246-1256		49
1246	Microbial community analysis of swine wastewater anaerobic lagoons by next-generation DNA sequencing. 2013 , 21, 50-7		24
1245	Reconstructing the microbial diversity and function of pre-agricultural tallgrass prairie soils in the United States. 2013 , 342, 621-4		324
1244	Structural basis for flg22-induced activation of the Arabidopsis FLS2-BAK1 immune complex. 2013 , 342, 624-8		426
1243	Acidobacteria from oligotrophic soil from the Cerrado can grow in a wide range of carbon source concentrations. 2013 , 59, 746-53		39

1242	Soil bacterial communities shaped by geochemical factors and land use in a less-explored area, Tibetan Plateau. 2013 , 14, 820	35
1241	Changes induced by <i>Trichoderma harzianum</i> in suppressive compost controlling <i>Fusarium</i> wilt. 2013 , 107, 112-9	40
1240	Chronic N-amended soils exhibit an altered bacterial community structure in Harvard Forest, MA, USA. 2013 , 83, 478-93	64
1239	Seasonal variation in functional properties of microbial communities in beech forest soil. 2013 , 60, 95-104	95
1238	Micro-scale determinants of bacterial diversity in soil. 2013 , 37, 936-54	305
1237	Ca. <i>Nitrososphaera</i> and <i>Bradyrhizobium</i> are inversely correlated and related to agricultural practices in long-term field experiments. 2013 , 4, 104	58
1236	Screening and expression of genes from metagenomes. 2013 , 83, 1-68	39
1235	Phylogenetic and functional changes in the microbial community of long-term restored soils under semiarid climate. 2013 , 65, 12-21	68
1234	From molecules to dynamic biological communities. 2013 , 28, 241-259	12
1233	Towards a molecular understanding of N cycling in northern hardwood forests under future rates of N deposition. 2013 , 66, 130-138	26
1232	Microbial modulators of soil carbon storage: integrating genomic and metabolic knowledge for global prediction. 2013 , 21, 641-51	253
1231	Resource use of soilborne <i>Streptomyces</i> varies with location, phylogeny, and nitrogen amendment. 2013 , 66, 961-71	20
1230	Sample processing and cDNA preparation for microbial metatranscriptomics in complex soil communities. 2013 , 531, 251-67	7
1229	Differential nutrient limitation of soil microbial biomass and metabolic quotients (qCO ₂): is there a biological stoichiometry of soil microbes?. 2013 , 8, e57127	148
