

CITATION REPORT

List of articles citing

Influence of the phosphodiesterase type 5 inhibitor, sildenafil, on antidepressant-like activity of magnesium in the forced swim test in mice

DOI: 10.1016/s1734-1140(12)70747-8
Pharmacological Reports, 2012, 64, 205-11.

Version: 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
9	Sildenafil, a phosphodiesterase type 5 inhibitor, reduces antidepressant-like activity of paroxetine in the forced swim test in mice. <i>Pharmacological Reports</i> , 2012 , 64, 1259-66	3.9	11
8	Magnesium in depression. <i>Pharmacological Reports</i> , 2013 , 65, 547-54	3.9	52
7	Antidepressant-like effects of the phosphodiesterase-4 inhibitor etazolate and phosphodiesterase-5 inhibitor sildenafil via cyclic AMP or cyclic GMP signaling in mice. <i>Metabolic Brain Disease</i> , 2014 , 29, 673-82	3.9	24
6	Antidepressant-like effect of tadalafil, a phosphodiesterase type 5 inhibitor, in the forced swim test: Dose and duration of treatment dependence. <i>Neurochemical Journal</i> , 2015 , 9, 306-310	0.5	1
5	Antidepressant-like effect of quercetin in bulbectomized mice and involvement of the antioxidant defenses, and the glutamatergic and oxidonitrgic pathways. <i>Pharmacology Biochemistry and Behavior</i> , 2015 , 136, 55-63	3.9	49
4	Magnesium in CKD: more than a calcification inhibitor?. <i>Journal of Nephrology</i> , 2015 , 28, 269-77	4.8	22
3	Antidepressant-like activity of sildenafil following acute and subchronic treatment in the forced swim test in mice: effects of restraint stress and monoamine depletion. <i>Metabolic Brain Disease</i> , 2016 , 31, 1095-104	3.9	11
