

CITATION REPORT

List of articles citing

Food protein-derived bioactive peptides: production, processing, and potential health benefits

DOI: 10.1111/j.1750-3841.2011.02455.x
Journal of Food Science, 2012, 77, R11-24.

Source: <https://exaly.com/paper-pdf/54454997/citation-report.pdf>

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
618	WITHDRAWN: Bioactive peptides derived from meat proteins. 2012 ,		
617	Bioactive Peptides. 2012 , 37-61		23
616	Use of Proteomics and Peptidomics Methods in Food Bioactive Peptide Science and Engineering. 2012 , 4, 224-243		97
615	Fermentation Technology in the Development of Functional Foods for Human Health: Where We Should Head. 2012 , 1,		3
614	Multifunctional cationic peptide fractions from flaxseed protein hydrolysates. 2012 , 67, 1-9		39
613	The effect of thermal and ultrasonic treatment on amino acid composition, radical scavenging and reducing potential of hydrolysates obtained from simulated gastrointestinal digestion of cowpea proteins. 2013 , 68, 31-8		25
612	Inhibitions of renin and angiotensin converting enzyme activities by enzymatic chicken skin protein hydrolysates. 2013 , 53, 260-267		31
611	Peptide enriched functional food adjunct from soy whey: A statistical optimization study. 2013 , 22, 65-71		14
610	Extraction of antioxidative and antihypertensive bioactive peptides from <i>Parkia speciosa</i> seeds. 2013 , 141, 3435-42		78
609	Separation, antitumor activities, and encapsulation of polypeptide from <i>Chlorella pyrenoidosa</i> . 2013 , 29, 681-7		66
608	Separation and nanoencapsulation of antitumor polypeptide from <i>Spirulina platensis</i> . 2013 , 29, 1230-8		44
607	Antihypertensive and free radical scavenging properties of enzymatic rapeseed protein hydrolysates. 2013 , 141, 153-9		104
606	Renin and angiotensin converting enzyme inhibition with antioxidant properties of African yam bean protein hydrolysate and reverse-phase HPLC-separated peptide fractions. 2013 , 52, 437-444		23
605	Protein-Based Designs for Healthier Foods of the Future. 2013 , 9-43		
604	Proteolytic activities in fillets of selected underutilized Australian fish species. 2013 , 140, 238-44		13
603	Meat proteome as source of functional biopeptides. 2013 , 54, 1021-1032		75
602	Almond protein hydrolysate fraction modulates the expression of proinflammatory cytokines and enzymes in activated macrophages. 2013 , 4, 777-83		23

601	Peptides with angiotensin I converting enzyme (ACE) inhibitory activity generated from porcine skeletal muscle proteins by the action of meat-borne Lactobacillus. 2013 , 89, 183-90	53
600	In silico analysis of the large and small subunits of cereal RuBisCO as precursors of cryptic bioactive peptides. 2013 , 48, 1794-1799	68
599	Protective effects of wheat germ protein isolate hydrolysates (WGPIH) against hydrogen peroxide-induced oxidative stress in PC12 cells. 2013 , 53, 297-303	37
598	Purification of a novel peptide derived from <i>Mytilus coruscus</i> and in vitro/in vivo evaluation of its bioactive properties. 2013 , 34, 1078-84	25
597	Selectivity and Toxicity of Oncolytic Antimicrobial Peptides. 2013 , 181-221
