

CITATION REPORT

List of articles citing

Tadalafil once daily and extracorporeal shock wave therapy in the management of patients with Peyroni's disease and erectile dysfunction: results from a prospective randomized trial

DOI: 10.1111/j.1365-2605.2011.01226.x

Journal of Developmental and Physical Disabilities,
2012, 35, 190-5.

Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
