

CITATION REPORT

List of articles citing

The organization of dorsal frontal cortex in humans and macaques

DOI: 10.1523/jneurosci.5108-12.2013
Journal of Neuroscience, 2013, 33, 12255-74.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
333	The structure of cognition: attentional episodes in mind and brain. 2013 , 80, 35-50		289
332	Frontal and parietal cortical interactions with distributed visual representations during selective attention and action selection. <i>Journal of Neuroscience</i> , 2013 , 33, 16443-58	6.6	50
331	What makes the dorsomedial frontal cortex active during reading the mental states of others?. 2013 , 7, 232		41
330	Specialized prefrontal "auditory fields": organization of primate prefrontal-temporal pathways. 2014 , 8, 77		53
329	Primate comparative neuroscience using magnetic resonance imaging: promises and challenges. 2014 , 8, 298		38
328	Clastrum projections to prefrontal cortex in the capuchin monkey (<i>Cebus apella</i>). 2014 , 8, 123		29
327	Comparing Connections in the Brains of Humans and Other Primates Using Diffusion-Weighted Imaging. 2014 , 569-584		1
326	A neural circuit covarying with social hierarchy in macaques. 2014 , 12, e1001940		106
325	Large-scale topology and the default mode network in the mouse connectome. 2014 , 111, 18745-50		160
324	Evolutionary and developmental changes in the lateral frontoparietal network: a little goes a long way for higher-level cognition. 2014 , 84, 906-17		72
323	Patterns of afferent input to the caudal and rostral areas of the dorsal premotor cortex (6DC and 6DR) in the marmoset monkey. 2014 , 522, 3683-716		37
322	Broad intrinsic functional connectivity boundaries of the macaque prefrontal cortex. <i>NeuroImage</i> , 2014 , 88, 202-11	7.9	20
321	Fractionating theory of mind: a meta-analysis of functional brain imaging studies. <i>Neuroscience and Biobehavioral Reviews</i> , 2014 , 42, 9-34	9	891
320	Bridging the gap between the human and macaque connectome: a quantitative comparison of global interspecies structure-function relationships and network topology. <i>Journal of Neuroscience</i> , 2014 , 34, 5552-63	6.6	101
319	Comparative primate neuroimaging: insights into human brain evolution. 2014 , 18, 46-55		133
318	Comparison of human ventral frontal cortex areas for cognitive control and language with areas in monkey frontal cortex. 2014 , 81, 700-13		275
317	Using action understanding to understand the left inferior parietal cortex in the human brain. 2014 , 1582, 64-76		8

316	Motor system evolution and the emergence of high cognitive functions. 2014 , 122, 73-93		66
315	Interoperable atlases of the human brain. <i>NeuroImage</i> , 2014 , 99, 525-32	7.9	56
314	Correction and suppression of reaching movements in the cerebral cortex: physiological and neuropsychological aspects. <i>Neuroscience and Biobehavioral Reviews</i> , 2014 , 42, 232-51	9	33
313	Representation of response alternatives in human presupplementary motor area: multi-voxel pattern analysis in a go/no-go task. 2014 , 56, 110-118		4
312	Connectivity-based parcellation: Critique and implications. 2015 , 36, 4771-92		189
311	A data-driven approach to extract connectivity structures from diffusion tensor imaging data. 2015 ,		2
310	Causal manipulation of functional connectivity in a specific neural pathway during behaviour and at rest. 2015 , 4,		28
309	Differential contributions of dorsolateral and frontopolar cortices to working memory processes in the primate. 2015 , 9, 144		6
308	An evaluation of neurocognitive models of theory of mind. 2015 , 6, 1610		34
307	The structure of online social networks mirrors those in the offline world. 2015 , 43, 39-47		206
306	Contrasting Roles for Orbitofrontal Cortex and Amygdala in Credit Assignment and Learning in Macaques. 2015 , 87, 1106-18		93
305	Age-related changes in the intrinsic functional connectivity of the human ventral vs. dorsal striatum from childhood to middle age. 2015 , 11, 83-95		53
304	Executive control and decision-making in the prefrontal cortex. 2015 , 1, 101-106		101
303	Determination of the posterior boundary of Wernicke's area based on multimodal connectivity profiles. 2015 , 36, 1908-24		45
302	Essential functions of primate frontopolar cortex in cognition. 2015 , 112, E1020-7		46
301	Prefrontal cortex and the dysconnectivity hypothesis of schizophrenia. 2015 , 31, 207-19		97
300	The mediodorsal thalamus as a higher order thalamic relay nucleus important for learning and decision-making. <i>Neuroscience and Biobehavioral Reviews</i> , 2015 , 54, 76-88	9	146
299	Visuomotor Functions in the Frontal Lobe. 2015 , 1, 469-498		54
