10774	Characterization of a cDNA encoding a 34-kDa Purkinje neuron protein recognized by sera from patients with paraneoplastic cerebellar degeneration.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 2873-2877.	3.3	47
10775	Isolation of human immunodeficiency virus-related simian immunodeficiency viruses from African green monkeys.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 2892-2896.	3.3	79
10776	A plant manganese superoxide dismutase is efficiently imported and correctly processed by yeast mitochondria.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 3237-3241.	3.3	72
10777	Wheat tetrameric inhibitors of insect \hat{A} -amylases: Allopoloid heterosis at the molecular level. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 3242-3246.	3.3	55
10778	Site-directed mutagenesis of the catalytic residues Asp-52 and Glu-35 of chicken egg white lysozyme.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 133-137.	3.3	180
10779	Molecular cloning of cDNA encoding Sm autoantigen: derivation of a cDNA for a B polypeptide of the U series of small nuclear ribonucleoprotein particles.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 4249-4253.	3.3	46
10780	Structural homology between lymphocyte receptors for high endothelium and class III extracellular matrix receptor.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 4654-4658.	3.3	110
10781	Studies on the DNA elongation inhibitor and its proliferating cell nuclear antigen-dependent control in simian virus 40 DNA replication in vitro.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 4877-4881.	3.3	37
10782	"Bundle blot" purification and initial protein characterization of hair cell stereocilia.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 4973-4977.	3.3	81
10783	Antibiotic proteins of human polymorphonuclear leukocytes.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 5610-5614.	3.3	265
10784	Serum- and oncoprotein-mediated induction of a gene with sequence similarity to the gene encoding carcinoembryonic antigen.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 5708-5712.	3.3	165
10785	Mandelonitrile lyase from <i>Ximenia americana</i> L.: stereospecificity and lack of flavin prosthetic group.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 6978-6981.	3.3	50
10786	Targeting and processing of glycoporphins in murine erythroleukemia cells: use of brefeldin A as a perturbant of intracellular traffic.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 6992-6996.	3.3	111
10787	Specific, major histocompatibility complex-unrestricted recognition of tumor-associated mucins by human cytotoxic T cells.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 7159-7163.	3.3	409
10788	In vitro tyrosine phosphorylation studies on RAS proteins and calmodulin suggest that polylysine-like basic peptides or domains may be involved in interactions between insulin receptor kinase and its substrate.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 7306-7310.	3.3	41
10789	Yeast TATA-box transcription factor gene.. Proceedings of the National Academy of Sciences of the United States of America, 1989, 86, 7785-7789.	3.3	193
