Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
306	Genetic polymorphisms of vascular endothelial growth factor and risk for retinopathy of prematurity in South of Iran. 2013 , 40, 4613-8		12
305	Integrin-linked kinase inhibition attenuates permeability of the streptozotocin-induced diabetic rat retina. 2013 , 67, 1467-72		2
304	A novel ex vivo murine retina angiogenesis (EMRA) assay. 2013 , 112, 51-6		25
303	Age-related macular degeneration revisited--piecing the puzzle: the LXIX Edward Jackson memorial lecture. 2013 , 155, 1-35.e13		192
302	Vascular endothelial growth factor (VEGF), mast cells and inflammation. 2013 , 26, 327-35		64
301	Elevated cell proliferation and VEGF production by high-glucose conditions in Müller cells involve XIAP. 2013 , 27, 1299-307		10
300	Anti-vascular endothelial growth factor therapy for diabetic macular edema. 2013 , 4, 151-69		111
299	The "cord of life" serving antiangiogenic therapy. 2013 , 121, 4254-5		
298	The use of vascular endothelial growth factor inhibitors (anti-VEGFs) for the treatment of diabetic retinopathy. 2013 , 4, 104-108		
297	Roles of EphA2 in Development and Disease. 2013 , 4, 334-57		37
296	Temsirolimus inhibits proliferation and migration in retinal pigment epithelial and endothelial cells via mTOR inhibition and decreases VEGF and PDGF expression. 2014 , 9, e88203		22
295	Fucoidan reduces secretion and expression of vascular endothelial growth factor in the retinal pigment epithelium and reduces angiogenesis in vitro. 2014 , 9, e89150		51
294	EGF-like-domain-7 is required for VEGF-induced Akt/ERK activation and vascular tube formation in an ex vivo angiogenesis assay. 2014 , 9, e91849		21
293	Differential angiogenic properties of lithium chloride in vitro and in vivo. 2014 , 9, e95546		19
292	Pharmacokinetics and efficacy of topically applied nonsteroidal anti-inflammatory drugs in retinochoroidal tissues in rabbits. 2014 , 9, e96481		23
291	Characterization of a spontaneous retinal neovascular mouse model. 2014 , 9, e106507		25
290	Vitreous and plasma VEGF levels as predictive factors in the progression of proliferative diabetic retinopathy after vitrectomy. 2014 , 9, e110531		40

289	Current treatment limitations in age-related macular degeneration and future approaches based on cell therapy and tissue engineering. 2014 , 2014, 510285	39
288	VEGF genetic polymorphisms may contribute to the risk of diabetic nephropathy in patients with diabetes mellitus: a meta-analysis. 2014 , 2014, 624573	7
287	Treatments for macular oedema following central retinal vein occlusion: systematic review. 2014 , 4, e004120	18
286	Drugs derived from phage display: from candidate identification to clinical practice. 2014 , 6, 73-85	107
285	Differential apicobasal VEGF signaling at vascular blood-neural barriers. 2014 , 30, 541-52	67
