

CITATION REPORT

List of articles citing

Effect of quercetin on traits of the metabolic syndrome, endothelial function and inflammation in men with different APOE isoforms

DOI: 10.1016/j.numecd.2011.08.010

Nutrition, Metabolism and Cardiovascular Diseases, 2013, 23, 403-9.

Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
