

CITATION REPORT

List of articles citing

Self-healing chemistry enables the stable operation of silicon microparticle anodes for high-energy lithium-ion batteries

DOI: 10.1038/nchem.1802

Nature Chemistry, 2013, 5, 1042-8.

Version: 2024-04-09

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
