

CITATION REPORT

List of articles citing

Preoperative use of anti-TNF therapy and postoperative complications in inflammatory bowel diseases: a meta-analysis

DOI: 10.1016/j.crohns.2013.01.014

Journal of Crohns and Colitis, 2013, 7, 853-67.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
