

CITATION REPORT

List of articles citing

A general and simple method for obtaining R^2 from generalized linear mixed-effects models

DOI: 10.1111/j.2041-210x.2012.00261.x

Methods in Ecology and Evolution, 2013, 4, 133-142.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2208	Development and validation of a predictive model of acute glucose response to exercise in individuals with type 2 diabetes. 2013 , 5, 33		4
2207	Iron oxidation stimulates organic matter decomposition in humid tropical forest soils. 2013 , 19, 2804-13		151
2206	Cultural influence on crowding norms in outdoor recreation: a comparative analysis of visitors to national parks in Turkey and the United States. 2013 , 52, 493-502		28
2205	The impact of an invasive plant changes over time. 2013 , 16, 1277-84		143
2204	Unsteady flow affects swimming energetics in a labriform fish (<i>Cymatogaster aggregata</i>). 2014 , 217, 414-22		29
2203	Carbon pools recover more quickly than plant biodiversity in tropical secondary forests. 2013 , 280, 20132236		195
2202	Physicians' radiation exposure in the catheterization lab: does the type of procedure matter?. 2013 , 6, 1095-102		38
2201	Hydrographic influences on the summer dive behaviour of Weddell seals (<i>Leptonychotes weddellii</i>) in Atka Bay, Antarctica. 2013 , 36, 1693-1700		14
2200	Prevalence of pink-footed goose grubbing in the arctic tundra increases with population expansion. 2013 , 36, 1569-1575		18
2199	Hybrid poplar plantations are suitable habitat for reintroduced forest herbs with conservation status. 2013 , 2, 507		15
2198	Successional specialization in a reptile community cautions against widespread planned burning and complete fire suppression. 2013 , 50, 1178-1186		48
2197	Prefledging Diet is Correlated with Individual Growth in Greater Sage-Grouse (<i>Centrocercus urophasianus</i>) La Dieta Previa al Emplumamiento está Correlacionada con el Crecimiento Individual en <i>Centrocercus urophasianus</i> . 2013 , 130, 715-724		16
2196	The combined effects of seed perishability and seed size on hoarding decisions by P ^{er} David ^e rock squirrels. 2013 , 67, 1067-1075		20
2195	Patterns of forest vegetation responses to edge effect as revealed by a continuous approach. 2013 , 70, 601-609		15
2194	Implications of a temperature increase for host plant range: predictions for a butterfly. 2013 , 3, 3021-9		22
2193	Validity of Darwin ^e naturalization hypothesis relates to the stages of invasion. 2013 , 14, 172-179		8
2192	Consequences of Least Tern (<i>Sternula antillarum</i>) microhabitat nest-site selection on natural and mechanically constructed sandbars in the Missouri River. 2013 , 130, 753-763		3

2191	Habitat use of a critically-endangered species in a predator-free but degraded reserve in Australia. 2013 , 19, 429-438	13
2190	Nonlinear variation of streamforest linkage along a stream-size gradient: an assessment using biogeochemical proxies of in-stream fine particulate organic matter. 2013 , 50, 1019-1027	12
2189	Extra-group mating increases inbreeding risk in a cooperatively breeding bird. 2013 , 22, 5700-15	23
2188	Female mediation of competitive fertilization success in <i>Drosophila melanogaster</i> . 2013 , 110, 10693-8	83
2187	Potential corridors and barriers for plague spread in Central Asia. 2013 , 12, 49	13
2186	Unravelling the environmental drivers of deep-sea nematode biodiversity and its relation with carbon mineralisation along a longitudinal primary productivity gradient. 2013 , 10, 3127-3143	25
2185	Environmental conditions during breeding modify the strength of mass-dependent carry-over effects in a migratory bird. 2013 , 8, e77783	27
2184	A top-down model to generate ensembles of runoff from a large number of hillslopes. 2013 , 20, 683-704	5
2183	Relationships among dietary fiber components and the digestibility of energy, dietary fiber, and amino acids and energy content of nine corn coproducts fed to growing pigs. 2014 , 92, 4505-17	40
2182	Individual winter movement strategies in two species of murre (<i>Uria</i> spp.) in the Northwest Atlantic. 2014 , 9, e90583	39
2181	Potential biological and ecological effects of flickering artificial light. 2014 , 9, e98631	47
2180	Impact of supplementary feeding on reproductive success of white storks. 2014 , 9, e104276	16
2179	Physiological condition of juvenile wading birds in relation to multiple landscape stressors in the Florida Everglades: effects of hydrology, prey availability, and mercury bioaccumulation. 2014 , 9, e106447	9
2178	Quantification of shared air: a social and environmental determinant of airborne disease transmission. 2014 , 9, e106622	31
2177	Effects of dwarf mistletoe on stand structure of lodgepole pine forests 21-28 years post-mountain pine beetle epidemic in central Oregon. 2014 , 9, e107532	12
2176	A long-term experimental study demonstrates the costs of begging that were not found over the short term. 2014 , 9, e111929	17
2175	Longevity in maternal transmission of isotopic marks in a tropical freshwater rainbowfish and the implications for offspring morphology. 2014 , 65, 400	5
2174	Connecting soil organic carbon and root biomass with land-use and vegetation in temperate grassland. 2014 , 2014, 487563	4

2173	Effects of Harvesting Systems and Bole Moisture Loss on Weight Scaling of Douglas-Fir Sawlogs (<i>Pseudotsuga Menziesii</i> var. <i>glauca</i> Franco). 2014 , 5, 2289-2306	9
2172	Enrichment of Logging Gaps with a High Conservation Value Species (<i>Pericopsis elata</i>) in a Central African Moist Forest. 2014 , 5, 3031-3047	14
2171	ERP correlates of word production predictors in picture naming: a trial by trial multiple regression analysis from stimulus onset to response. 2014 , 8, 390	33
2170	How contact with nature affects children's biophilia, biophobia and conservation attitude in China. 2014 , 177, 109-116	146
2169	Stand Structure and Recent Climate Change Constrain Stand Basal Area Change in European Forests: A Comparison Across Boreal, Temperate, and Mediterranean Biomes. 2014 , 17, 1439-1454	37
2168	Costs of mate-guarding in wild male long-tailed macaques (<i>Macaca fascicularis</i>): physiological stress and aggression. 2014 , 66, 637-48	32
2167	Ontogenetic trait variation influences tree community assembly across environmental gradients. 2014 , 5, art129	44
2166	Spatial behaviour of a keystone Arctic marine predator and implications of climate warming in Hudson Bay. 2014 , 461, 504-515	23
2165	Scalar Diversity. 2014 , ffu017	21
2164	Effects of Weather Conditions, Time of Breeding, Brood Size and Hatching Order on Eurasian Bittern Nestling Growth in a Food-Rich Fishpond Habitat. 2014 , 51, 477-487	9
2163	Explained Variance Measures for Multilevel Models. 2014 , 17, 433-451	107
2162	Environmental variation as a driver of predator-prey interactions. 2014 , 5, art164-art164	9
2161	Glyco-engineered anti-EGFR mAb elicits ADCC by NK cells from colorectal cancer patients irrespective of chemotherapy. 2014 , 110, 1221-7	20
2160	Familial risk for alcohol dependence and developmental changes in BMI: the moderating influence of addiction and obesity genes. 2014 , 15, 1311-21	13
2159	An individual-based growth and competition model for coastal redwood forest restoration. 2014 , 44, 1051-1057	7
2158	Variability in dengue titer estimates from plaque reduction neutralization tests poses a challenge to epidemiological studies and vaccine development. 2014 , 8, e2952	34
2157	Seasonality of the Urban Heat Island Effect in Madison, Wisconsin. 2014 , 53, 2371-2386	79
2156	Disentangling human tolerance and resistance against HIV. 2014 , 12, e1001951	36

2155	Effect of host tree density and apparency on the probability of attack by the pine processionary moth. 2014 , 334, 185-192	35
2154	Parents' presence affects embryos' development in <i>Salaria fluviatilis</i> (Asso, 1801), a fish with parental care. 2014 , 64, 295-309	1
2153	A digital photography protocol for the rapid assessment of herbaceous communities in riparian buffers. 2014 , 2,	1
2152	Heritable, heterogeneous, and costly resistance of sheep against nematodes and potential feedbacks to epidemiological dynamics. 2014 , 184 Suppl 1, S58-76	46
2151	Responses of benthic invertebrate communities to shoreline retrogressive thaw slumps in Arctic upland lakes. 2014 , 33, 1108-1118	15
2150	Environmental factors and habitat use influence body condition of individuals in a species at risk, the grizzly bear. 2014 , 2, cou043	13
2149	Age-related patterns of antler development in free-ranging white-tailed deer. 2014 , 78, 976-984	9
2148	Surface contact and design of fibrillar 'friction pads' in stick insects (<i>Carausius morosus</i>): mechanisms for large friction coefficients and negligible adhesion. 2014 , 11, 20140034	34
2147	Structure of tree vegetation may reduce costs of territory defence in Eurasian Nuthatch <i>Sitta europaea</i> . 2014 , 61, 413-420	3
2146	Socially mediated polyandry: a new benefit of communal nesting in mammals. 2014 , 25, 1467-1473	21
2145	Behavioral responses of wolves to roads: scale-dependent ambivalence. 2014 , 25, 1353-1364	79
2144	Individual and environmental effects on egg allocations of female Greater Sage-Grouse. 2014 , 131, 507-523	13
2143	What Predicts Loneliness? Cultural Difference Between Individualistic and Collectivistic Societies in Europe. 2014 , 45, 468-490	107
2142	Does limited internal femoral rotation increase peak anterior cruciate ligament strain during a simulated pivot landing?. 2014 , 42, 2955-63	30
2141	Do variable rates of alcohol drinking alter the ability to use transdermal alcohol monitors to estimate peak breath alcohol and total number of drinks?. 2014 , 38, 2517-22	20
2140	Perceived predation risk affects sleep behaviour in free-living great tits, <i>Parus major</i> . 2014 , 98, 157-165	22
2139	Post-fire bedload sediment delivery across spatial scales in the interior western United States. 2014 , 39, 865-876	66
2138	Effects of experimental warming on nitrogen concentration and biomass of forage plants for an arctic herbivore. 2014 , 102, 508-517	51

2137	Epigenetic variation predicts regional and local intraspecific functional diversity in a perennial herb. 2014 , 23, 4926-38	59
2136	Museum specimens reveal loss of pollen host plants as key factor driving wild bee decline in The Netherlands. 2014 , 111, 17552-7	173
2135	The Rate of Degradation of Chemical Cues Indicating Predation Risk: An Experiment and Review. 2014 , 120, 942-949	37
2134	Influences of habitat composition, plant phenology, and population density on autumn indices of body condition in a northern white-tailed deer population. 2014 , 187, 1-28	24
2133	Xylem formation can be modeled statistically as a function of primary growth and cambium activity. 2014 , 203, 831-41	56
2132	Egg mortality in the pine processionary moth: habitat diversity, microclimate and predation effects. 2014 , 16, 284-292	9
2131	Action attenuates the effect of visibility on gesture rates. 2014 , 38, 1468-81	9
2130	Distribution models for koalas in South Australia using citizen science-collected data. 2014 , 4, 2103-14	44
