Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
1461	Intraspecific Sexual Size and Shape Dimorphism in an Australian Freshwater Fish Differs with Respect to a Biogeographic Barrier and Latitude. 2013 , 40, 408-419		16
1460	A 3-D geometric morphometric study of intraspecific variation in the ontogeny of the temporal bone in modern <i>Homo sapiens</i> . 2013 , 65, 479-89		22
1459	Deficiency of zebrafish <i>fgf20a</i> results in aberrant skull remodeling that mimics both human cranial disease and evolutionarily important fish skull morphologies. 2013 , 15, 426-41		19
1458	Assessing trait covariation and morphological integration on phylogenies using evolutionary covariance matrices. 2014 , 9, e94335		118
1457	A new interpretation of the bee fossil <i>Melitta willardi</i> Cockerell (Hymenoptera, Melittidae) based on geometric morphometrics of the wing. 2014 , 35-48		13
1456	The genetic origin of honey bee colonies used in the COLOSS Genotype-Environment Interactions Experiment: a comparison of methods. 2014 , 53, 188-204		19
1455	Sexual selection, phenotypic variation, and allometry in genitalic and non-genitalic traits in the sexually size-dimorphic stick insect <i>Micrarchus hystrioleus</i> . 2014 , 113, 471-484		20
1454	New insights into the phenotypic covariance structure of the anthropoid cranium. 2014 , 225, 634-58		3
1453	Brief communication: Developmental versus functional three-dimensional geometric morphometric-based modularity of the human proximal humerus. 2014 , 154, 459-65		10
1452	TRADER: A package for Tree Ring Analysis of Disturbance Events in R. 2014 , 32, 107-112		57
1451	Flexible feeding kinematics of a tropical carnivorous anuran tadpole. 2014 , 293, 204-210		10
1450	Phylogenetic, ecological, and allometric correlates of cranial shape in Malagasy lemuriforms. 2014 , 68, 1450-68		22
1449	Ontogenetic variation in the mandibular ramus of great apes and humans. 2014 , 275, 661-77		11
1448	Morphological integration in the forelimb of musteloid carnivorans. 2014 , 225, 19-30		37
1447	Quantifying and comparing phylogenetic evolutionary rates for shape and other high-dimensional phenotypic data. 2014 , 63, 166-77		127
1446	Relationships within the <i>Melitaea phoebe</i> species group (Lepidoptera: Nymphalidae): new insights from molecular and morphometric information. 2014 , 39, 749-757		10
1445	A geometric morphometric approach to establish body-shape trait criteria for aquatic insects. 2014 , 33, 978-994		10

1444	The ontogenetic origins of skull shape disparity in the <i>Triturus cristatus</i> group. 2014 , 16, 306-17		11
1443	Palate Variation and Evolution in New World Leaf-Nosed and Old World Fruit Bats (Order Chiroptera). 2014 , 41, 595-605		5
1442	Body shape and burial behavior of the sand crab <i>Emerita analoga</i> (Stimpson 1857) in a reflective to intermediate morphodynamic range of sandy beaches. 2014 , 161, 2345-2357		6
1441	Phenotypic plasticity changes correlations of traits following experimental introductions of Trinidadian guppies (<i>Poecilia reticulata</i>). 2014 , 54, 794-804		14
1440	The potential influence of morphology on the evolutionary divergence of an acoustic signal. 2014 , 27, 2163-76		6
1439	Digitizing archaeology: a subtle revolution in analysis. 2014 , 46, 1-9		29
1438	A method for assessing phylogenetic least squares models for shape and other high-dimensional multivariate data. 2014 , 68, 2675-88		149
1437	A generalized K statistic for estimating phylogenetic signal from shape and other high-dimensional multivariate data. 2014 , 63, 685-97		338
1436	Effect of bite force and diet composition on craniofacial diversification of Southern South American human populations. 2014 , 155, 114-27		20
1435	A Major Locus Controls a Genital Shape Difference Involved in Reproductive Isolation Between <i>Drosophila yakuba</i> and <i>Drosophila santomea</i> . 2015 , 5, 2893-901		22
1434	Shape variation in the least killifish: ecological associations of phenotypic variation and the effects of a common garden. 2015 , 5, 5616-31		11
1433	Functional morphology of the Neandertal scapular glenoid fossa. 2015 , 298, 168-79		6
1432	mvmorph: an r package for fitting multivariate evolutionary models to morphometric data. <i>Methods in Ecology and Evolution</i> , 2015 , 6, 1311-1319	7.7	198
1431	Ulnar articular surface 3-D landmarks and ecomorphology of small mammals: a case study of two early Miocene typotheres (Notoungulata) from Patagonia. 2015 , 106, 315-323		11
1430	Functional coupling constrains craniofacial diversification in Lake Tanganyika cichlids. 2015 , 11, 20141053		10
1429	Landmark precision and reliability and accuracy of linear distances estimated by using 3D computed micro-tomography and the open-source TINA Manual Landmarking Tool software. 2015 , 12, 12		9
1428	Digging adaptation in insectivorous subterranean eutherians. The enigma of <i>Mesoscalops montanensis</i> unveiled by geometric morphometrics and finite element analysis. 2015 , 276, 1157-71		23
1427	Clavicular curvature and locomotion in anthropoid primates: A 3D geometric morphometric analysis. 2015 , 158, 257-268		8

1426	Growth trajectories in the cave bear and its extant relatives: an examination of ontogenetic patterns in phylogeny. 2015 , 15, 239	9
1425	A new phylogenetic test for comparing multiple high-dimensional evolutionary rates suggests interplay of evolutionary rates and modularity in lanternfishes (Myctophiformes; Myctophidae). 2015 , 69, 2425-40	62
1424	Molecular systematics of gerbils and deomyines (Rodentia: Gerbillinae, Deomyinae) and a test of desert adaptation in the tympanic bulla. 2015 , 53, 312-330	41
1423	Potential rapid evolution of foot morphology in Italian plethodontid salamanders (<i>Hydromantes strinatii</i>) following the colonization of an artificial cave. 2015 , 28, 1403-9	13
1422	Variation in the shape and mechanical performance of the lower jaws in ceratopsid dinosaurs (Ornithischia, Ceratopsia). 2015 , 227, 631-46	13
1421	Diversification of body shape in <i>Sebastes</i> rockfishes of the north-east Pacific. 2015 , 116, 805-818	18
1420	Microevolutionary patterns in the common caiman predict macroevolutionary trends across extant crocodylians. 2015 , 116, 834-846	11
1419	Chewing on the trees: Constraints and adaptation in the evolution of the primate mandible. 2015 , 69, 1690-700	32
1418	Bones in motion: Ontogeny of craniofacial development in sympatric arctic charr morphs. 2015 , 244, 1168-1178	22
1417	Dentary morphological variation in <i>Clevosaurus brasiliensis</i> (Rhynchocephalia, Clevosauridae) from the Upper Triassic of Rio Grande do Sul, Brazil. 2015 , 10, e0119307	8
1416	Are cranial biomechanical simulation data linked to known diets in extant taxa? A method for applying diet-biomechanics linkage models to infer feeding capability of extinct species. 2015 , 10, e0124020	24
1415	Rapid Morphological Change in the Masticatory Structures of an Important Ecosystem Service Provider. 2015 , 10, e0127218	7
1414	Patriline Differences Reveal Genetic Influence on Forewing Size and Shape in a Yellowjacket Wasp (Hymenoptera: Vespidae: <i>Vespula flavopilosa</i> Jacobson, 1978). 2015 , 10, e0130064	3
1413	GLO-Roots: an imaging platform enabling multidimensional characterization of soil-grown root systems. 2015 , 4,	143
1412	Taxonomic assessment of <i>Culicoides brunnicans</i> , <i>C. santonicus</i> and <i>C. vexans</i> (Diptera: Ceratopogonidae) in France: Implications in systematics. 2015 , 33, 324-31	8
1411	Lunge feeding in early marine reptiles and fast evolution of marine tetrapod feeding guilds. 2015 , 5, 8900	23
1410	A geometric morphometric analysis of acetabular shape of the primate hip joint in relation to locomotor behaviour. 2015 , 83, 15-27	7
1409	Sexual dimorphism in wings and wing bands of <i>Sympetrum pedemontanum</i> (Müller in Allioni 1776). 2015 , 134, 531-540	7

1408	Constraint and diversification of developmental trajectories in cichlid facial morphologies. 2015 , 6, 25	34
1407	Does wing shape of andromorph females of <i>Calopteryx splendens</i> (Harris, 1780) resemble that of males?. 2015 , 18, 305-315	2
1406	Phenotypic plasticity and modularity allow for the production of novel mosaic phenotypes in ants. 2015 , 6, 36	21
1405	Phylogenetic Comparative Methods for Evaluating the Evolutionary History of Function-Valued Traits. 2015 , 64, 568-78	25
1404	On bad terms: Problems and solutions within zooarchaeological bone surface modification studies. 2015 , 20, 89-103	34
1403	Effects of environmental disturbance on phenotypic variation: an integrated assessment of canalization, developmental stability, modularity, and allometry in lizard head shape. 2015 , 185, 44-58	47
1402	Permutation tests for phylogenetic comparative analyses of high-dimensional shape data: what you shuffle matters. 2015 , 69, 823-9	59
1401	Divergence of craniofacial developmental trajectories among avian embryos. 2015 , 244, 1158-1167	24
1400	Encephalization and diversification of the cranial base in platyrrhine primates. 2015 , 81, 29-40	15

- 64 Quantifying elevational effect on the geometric body shape of Russian beetle *Carabus exaratus* (Coleoptera: Carabidae). **2022**, 1 ○
- 63 Relation between Nasal Septum Deviation and Facial Asymmetry: An Ontogenetic Analysis from Infants to Children Using Geometric Morphometrics. **2022**, 12, 11362 ○
- 62 Ts66Yah, an upgraded Ts65Dn mouse model for down syndrome, for only the region homologous to human chromosome 21. ○
- 61 Can extreme climatic events induce shifts in adaptive potential? A conceptual framework and empirical test with *Anolis* lizards. ○
- 60 Plant Scent and Plant-Insect Interactions âReview and Outlook from a Macroevolutionary Perspective. ○
- 59 A comparative analysis of the ontogeny of syngnathids (pipefishes & seahorses) reveals how heterochrony contributed to their diversification. ○

- 58 Geometric morphometric analysis of the bony labyrinth of the Sima de los Huesos hominins. **2023**, 174, 103280 ○
- 57 Reassessment of the human mandible from Banyoles (Girona, Spain). **2023**, 174, 103291 ○
- 56 A review of the curved lithic cleavers from the rainforest of southeastern South America. **2023**, 47, 103714 ○
- 55 An evolutionary ecomorphological perspective on the assembly of a Neotropical bat metacommunity. ○
- 54 Shape analysis of Iron Age sheep astragali suggests west-to-east morphotype diffusion in the southern Levant. ○
- 53 Statistical protocol for analyzing 3D muscle attachment sites based on the "Validated Entheses-based Reconstruction of Activity" (V.E.R.A.) approach. 1
- 52 Insight into the evolutionary assemblage of cranial kinesis from a Cretaceous bird. 11, 1
- 51 Ruminant inner ear shape records 35 million years of neutral evolution. **2022**, 13, 1
- 50 Reevaluation of the status of the Central American brocket deer *Mazama temama* (Artiodactyla: Cervidae) subspecies based on morphological and environmental evidence. ○
- 49 Ecomorphology and Morphological Disparity of *Caquetaia Kraussii* (Perciformes: Cichlidae) in Colombia. **2022**, 12, 3438 1
- 48 Ecomorphological Differentiation of Feeding Structures within the Antarctic Fish Species Flock Trematominae (Notothenioidei) from Terra Nova Bay (Ross Sea). **2022**, 10, 1876 ○
- 47 How to tuna fish: constraint, convergence and integration in the neurocranium of pelagiarian fishes. 1
- 46 Dental form and function in the early feeding diversification of dinosaurs. **2022**, 8, ○
- 45 Interacting effects of environmental enrichment across multiple generations on early life phenotypes in zebrafish. ○
- 44 An arachnid's guide to being an ant: morphological and behavioral mimicry in ant-mimicking spiders. ○
- 43 The problematic Cambrian arthropod *Tuzoia* and the origin of mandibulates revisited. **2022**, 9, ○
- 42 Genomic Consequences of and Demographic Response to Pervasive Hybridization over Time in Climate-sensitive Pikas. ○
- 41 Advancement in Human Face Prediction Using DNA. **2023**, 14, 136 ○

- 40 Cryptic diversity of Crocidura shrews in the savannahs of eastern and southern Africa. **2023**, 107708 ○
- 39 Patterns of functional diversity along latitudinal gradients of species richness in eleven fish families. ○
- 38 Ecological and life history drivers of avian skull evolution. ○
- 37 Homo sapiens and Neanderthals share high cerebral cortex integration into adulthood. **2023**, 7, 42-50 ○
- 36 Integrative analysis reveals the divergence and speciation between sister Sooty Copper butterflies *Lycaena bleusei* and *L. tityrus*. **2023**, 180, 107699 ○
- 35 Wing morphology is related to niche specialization and interaction networks in stenodermatine bats (Chiroptera: Phyllostomidae). ○
- 34 Trait variation in a successful global invader: a large-scale analysis of morphological variance and integration in the brown trout. ○
- 33 Improving Species Delimitation for Effective Conservation: A Case Study in the Endemic Maple-leaf Oak (*Quercus acerifolia*). ○
- 32 Bite force transmission and mandible shape in grasshoppers, crickets, and allies is largely dependent on phylogeny, not diet. ○
- 31 Role of paleoclimatic and paleohydrological processes in lineage divergence in freshwater organisms: A snippet from lentic genus *Pila*. **2023**, 181, 107723 ○
- 30 Perdiz arrow points from Caddo burial contexts aid in defining discrete behavioral regions. 1-14 ○
- 29 Enamel thickness per masticatory phases (ETMP): A new approach to assess the relationship between macrowear and enamel thickness in the human lower first molar. **2023**, 153, 105776 ○
- 28 Three-dimensional geometric morphometric study of the Xuchang 2 cranium. **2023**, 178, 103347 ○
- 27 An automated landmark method to describe geometric changes in the human mandible during growth. **2023**, 149, 105663 ○
- 26 Morphospace trends underlying a global turnover: Ecological dynamics of trilobite assemblages at the onset of the Ordovician Radiation. **2023**, 615, 111448 ○
- 25 Locomotor adaptations in the Early Miocene species *Diamantomys luederitzi* (Rodentia, Mammalia) from Uganda (Napak). **2023**, 284, ○
- 24 Evolutionary convergence of muscle architecture in relation to locomotor ecology in snakes. **2023**, 242, 862-871 ○
- 23 A Volumetric Analysis of Handaxe Symmetry Referencing a Known Symmetrical Ideal. ○

- 22 Bilateral ankle deformities affects gait kinematics in chronic stroke patients. 14, ○
- 21 Ontogenetic Variation and Sexual Dimorphism of Beaks among Four Cephalopod Species Based on Geometric Morphometrics. **2023**, 13, 752 ○
- 20 Using pose estimation to identify regions and points on natural history specimens. **2023**, 19, e1010933 ○
- 19 Taurus of the Tidepool? Inferring the Function of Cranial Weapons in Intertidal Sculpins (Pisces: Cottoidea: Oligocottinae). **2023**, 111, ○
- 18 Examining craniofacial variation among crispant and mutant zebrafish models of human skeletal diseases. ○
- 17 Evolutionary contingency in lingulid brachiopods across mass extinctions. **2023**, ○
- 16 Geometric morphometrics and ecological niche modelling for delimitation of *Triatoma pallidipennis* (Hemiptera: Reduviidae: Triatominae) haplogroups. **2023**, 3, 100119 ○
- 15 Digest: A new tool will illuminate patterns of morphological integration. **2023**, 77, 622-624 ○
- 14 Evolution of semiaquatic habits in hippos and their extinct relatives: insights from the ear region. ○
- 13 Predicting the shape, size, and placement of adult human pubic symphyses. ○
- 12 Evolutionary history explains foliar spectral differences between arbuscular and ectomycorrhizal plant species. ○
- 11 Phenotypic Stock Evaluation of *Plagioscion magdalenae* (Steindachner, 1878): A Species in the Dique Channel in Colombia. **2023**, 8, 173 ○
- 10 Diversification of cephalic shield shape and antenna in phyllosoma I of slipper and spiny lobsters (Decapoda: Achelata). 10, ○
- 9 Structural elements promote architectural stripe formation and facilitate ultra-long-range gene regulation at a human disease locus. **2023**, ○
- 8 The relative performance of geometric morphometrics and linear-based methods in the taxonomic resolution of a mammalian species complex. **2023**, 13, ○
- 7 Elevated developmental temperatures impact the size and allometry of morphological traits of the bumblebee *Bombus terrestris*. **2023**, 226, ○
- 6 Dire wolf (*Canis dirus*) from the late Pleistocene of southern Canada (Medicine Hat, Alberta). ○
- 5 First insights into the morphological development of tarsal claws in terrestrial oribatid mites. **2023**, 63, 419-427 ○

- 4 Craniodental divergence associated with bite force between hybridizing pine squirrels (*Tamiasciurus*). **2023**, 18, e0284094
- 3 Disentangling mechanical and sensory modules in the radiation of Noctilionoid bats.
- 2 A systematic revision of the Shovel-nosed Salamander (Plethodontidae: *Desmognathus marmoratus*), with re-description of the related *D. aureatus* and *D. intermedius*. **2023**, 5270, 262-280
- 1 Complex plumages spur rapid color diversification in kingfishers (Aves: Alcedinidae). 12,
