

CITATION REPORT

List of articles citing

Decoupling hydrogen and oxygen evolution during electrolytic water splitting using an electron-coupled-proton buffer

DOI: 10.1038/nchem.1621

Nature Chemistry, 2013, 5, 403-9.

Source: <https://exaly.com/paper-pdf/55823975/citation-report.pdf>

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
391	This week in science. 1990 , 249, 603		1
390	A bio-inspired, small molecule electron-coupled-proton buffer for decoupling the half-reactions of electrolytic water splitting. <i>Journal of the American Chemical Society</i> , 2013 , 135, 13656-9	16.4	87
