Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
114	Fueling the Fire: Pathways from Oil to War. 2013 , 38, 147-180		61
113	National Oil Companies and the Future of the Oil Industry. 2013 , 5, 445-462		17
112	The puzzle of oil. 1-22		
111	Select bibliography. 220-246		
110	The concept of energy security: Beyond the four As. 2014 , 75, 415-421		251
109	International political economy: A field born of the OPEC crisis returns to its energy roots. 2014 , 1, 206-216		75
108	Natural gas in Asia: Trade, markets and regional institutions. 2014 , 74, 80-90		30
107	The limits of energy independence: Assessing the implications of oil abundance for U.S. foreign policy. 2014 , 3, 55-64		6
106	Roots and development of intellectual property management research: A bibliometric review. 2015 , 40, 10-20		4
105	Prospects for bioenergy use in Ghana using Long-range Energy Alternatives Planning model. 2015 , 93, 672-682		31
104	Resources and Capabilities of Triple Bottom Line Firms: Going Over Old or Breaking New Ground?. 2015 , 127, 623-642		98
103	The Political Economy of Energy Innovation. 2016 ,		2
102	Institutions and the Environment: Existing Evidence and Future Directions. 2016 ,		6
101	Global energy governance: a review and research agenda. 2016 , 2,		63
100	Limits to cooperation: why Israel does not want to become a member of the International Energy Agency. 2016 , 22, 512-527		1
99	States, Markets, and Institutions: Integrating International Political Economy and Global Energy Politics. 2016 , 3-44		7
98	Analysing Energy Transitions: Combining Insights from Transition Studies and International Political Economy. 2016 , 291-318		16

97	Varieties of market-based policy: Instrument choice in climate policy. 2016 , 25, 853-874	24
96	The Shifting Geopolitics of Russia's Natural Gas Exports and Their Impact on EU-Russia Gas Relations. 2016 , 21, 880-912	22
95	A crude reversal: The political economy of the United States crude oil export policy. 2017 , 24, 30-35	13
94	The New Politics of Energy Security in the European Union and Beyond. 2017 ,	14
93	A framework for evaluating global national energy security. 2017 , 188, 19-31	57
92	Mining in the Asia-Pacific. 2017 ,	
91	The long-run relationships between energy efficiency and environmental performance: Global evidence. 2017 , 28, 706-724	10
90	Comparing electricity transitions: A historical analysis of nuclear, wind and solar power in Germany and Japan. 2017 , 101, 612-628	91
89	Italian energy security, the Southern Gas Corridor and the new pipeline politics in Western Europe: from the partner state to the catalytic state. 2018 , 21, 464-494	8
88	Handbook of the International Political Economy of Energy and Natural Resources. 2018 ,	19
87	Politics in the U.S. energy transition: Case studies of solar, wind, biofuels and electric vehicles policy. 2018 , 113, 76-86	134
86	Gas Games. 2018 ,	1
85	Differentiation, materiality, and power: Towards a political economy of fossil fuels. 2018 , 39, 130-140	20
84	Integrating techno-economic, socio-technical and political perspectives on national energy transitions: A meta-theoretical framework. 2018 , 37, 175-190	203
83	Evaluation of Sustainable Energy Security and an Empirical Analysis of China. 2018 , 10, 1685	39
82	Low-carbon technologies, national innovation systems, and global production networks: the state of play. 281-296	1
81	From decentralization to re-nationalization: Energy policy networks and energy agenda setting in Thailand (1987-2017). 2018 , 120, 593-599	6
80	Geopolitically induced investments in biofuels. 2018 , 74, 721-732	4

79	Cutting with both arms of the scissors: the economic and political case for restrictive supply-side climate policies. 2018 , 150, 73-87	73
78	The influence of institutions, governance, and public opinion on the environment: Synthesized findings from applied econometrics studies. 2018 , 43, 77-95	27
77	Stakeholder perceptions of the United States energy transition: Local-level dynamics and community responses to national politics and policy. 2018 , 43, 144-157	23
76	Renewable systems and energy storages for hybrid systems. 2018 , 147-164	4
75	How the regime hampered a transition to renewable electricity in Hungary. 2019 , 33, 162-182	11
74	Weaponized Interdependence: How Global Economic Networks Shape State Coercion. 2019 , 44, 42-79	147
73	Energy and Environmental Strategies in the Era of Globalization. 2019 ,	2
72	The Role of Energy Innovation and Corruption in Carbon Emissions: Evidence Based on the EKC Hypothesis. 2019 , 271-304	22
71	Policy goals, partisanship and paradigmatic change in energy policy Analyzing parliamentary discourse in Germany over 30 years. 2019 , 19, 771-786	30
70	Political Science and Energy. 2019 , 25-31	
69	A securitisation approach to international energy politics. 2019 , 49, 114-125	19
68	When the oil runs out: Changing rentier politics in the greater Mediterranean region. 2019 , 24, 665-673
