

CITATION REPORT

List of articles citing

Oxidative stress, redox signaling, and metal chelation in anthracycline cardiotoxicity and pharmacological cardioprotection

DOI: 10.1089/ars.2012.4795

Antioxidants and Redox Signaling, 2013, 18, 899-929.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
