

CITATION REPORT

List of articles citing

Ecological erosion of an Afrotropical forest and potential consequences for tree recruitment and forest biom

DOI: 10.1016/j.biocon.2013.03.021
Biological Conservation, 2013, 163, 122-130.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
