

# CITATION REPORT

List of articles citing

**Cohort Profile: the children of the 90s—the index offspring of the Avon Longitudinal Study of Parents and Children**

**DOI: 10.1093/ije/dys064**

**International Journal of Epidemiology, 2013, 42, 111-27.**

**Source:** <https://exaly.com/paper-pdf/56148853/citation-report.pdf>

**Version:** 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2192	Genetic variation in the 15q25 nicotinic acetylcholine receptor gene cluster (CHRNA5-CHRNA3-CHRNA4) interacts with maternal self-reported smoking status during pregnancy to influence birth weight. <b>2012</b> , 21, 5344-58		50
2191	Associations of existing diabetes, gestational diabetes, and glycosuria with offspring IQ and educational attainment: the Avon Longitudinal Study of Parents and Children. <b>2012</b> , 2012, 963735		65
2190	Prevalence and audiological features in carriers of GJB2 mutations, c.35delG and c.101T>C (p.M34T), in a UK population study. <b>2012</b> , 2,		17
2189	The role of longitudinal cohort studies in epigenetic epidemiology: challenges and opportunities. <b>2012</b> , 13, 246		49
2188	Diagnosis as a social determinant: the development of prosocial behaviour before and after an autism spectrum diagnosis. <b>2012</b> , 75, 1642-9		7
2187	Maternal and offspring fasting glucose and type 2 diabetes-associated genetic variants and cognitive function at age 8: a Mendelian randomization study in the Avon Longitudinal Study of Parents and Children. <b>2012</b> , 13, 90		19
2186	Adolescent self-harm and suicidal thoughts in the ALSPAC cohort: a self-report survey in England. <b>2012</b> , 12, 69		80
2185	Associations of different phenotypes of wheezing illness in early childhood with environmental variables implicated in the aetiology of asthma. <b>2012</b> , 7, e48359		21
2184	Dietary patterns of infants and toddlers are associated with nutrient intakes. <b>2012</b> , 4, 935-48		17
2183	Identifying scoliosis in population-based cohorts: development and validation of a novel method based on total-body dual-energy x-ray absorptiometric scans. <b>2013</b> , 92, 539-47		11
2182	Maternal 25-hydroxyvitamin D and its association with childhood atopic outcomes and lung function. <b>2013</b> , 43, 1180-8		53
2181	Economic benefits of methylmercury exposure control in Europe: monetary value of neurotoxicity prevention. <b>2013</b> , 12, 3		90
2180	Movement outcomes of infants born moderate and late preterm. <b>2013</b> , 102, 876-82		13
2179	Adolescent alcohol use is predicted by childhood temperament factors before age 5, with mediation through personality and peers. <b>2013</b> , 37, 2108-17		30
2178	Common variation contributes to the genetic architecture of social communication traits. <b>2013</b> , 4, 34		29
2177	Socio-economic position and childhood multimorbidity: a study using linkage between the Avon Longitudinal Study of Parents and Children and the General Practice Research Database. <b>2013</b> , 12, 66		9
2176	Parent-infant vocalisations at 12 months predict psychopathology at 7 years. <b>2013</b> , 34, 985-93		6

2175	Genome-wide association study of shared components of reading disability and language impairment. <b>2013</b> , 12, 792-801	69
2174	Nine loci for ocular axial length identified through genome-wide association studies, including shared loci with refractive error. <b>2013</b> , 93, 264-77	116
2173	Gender differences in the relationship between social communication and emotion recognition. <b>2013</b> , 52, 1148-1157.e2	35
2172	Developmental continuity of oppositional defiant disorder subdimensions at ages 8, 10, and 13 years and their distinct psychiatric outcomes at age 16 years. <b>2013</b> , 52, 961-9	80
2171	The relationship between psychotic symptoms and social functioning in a non-clinical population of 12year olds. <b>2013</b> , 150, 404-9	16
2170	No moderating effect of 5-HTTLPR on associations between antenatal anxiety and infant behavior. <b>2013</b> , 52, 519-26	27
2169	Examination of the relationship between variation at 17q21 and childhood wheeze phenotypes. <b>2013</b> , 131, 685-94	51
2168	Genome-wide association study identifies loci affecting blood copper, selenium and zinc. <b>2013</b> , 22, 3998-4006	76
2167	Internalizing and externalizing behaviors predict elevated inflammatory markers in childhood. <b>2013</b> , 38, 2854-62	34
2166	Cigarette smoking and alcohol drinking in a representative sample of English school pupils: cross-sectional and longitudinal associations. <b>2013</b> , 56, 304-8	18
2165	Association of maternal vitamin D status during pregnancy with bone-mineral content in offspring: a prospective cohort study. <b>2013</b> , 381, 2176-83	120
2164	Alleles of a polymorphic ETV6 binding site in DCDC2 confer risk of reading and language impairment. <b>2013</b> , 93, 19-28	50
2163	Conduct problem trajectories and alcohol use and misuse in mid to late adolescence. <b>2013</b> , 133, 100-7	25
2162	Never plan a population based cohort study on a rainy Friday after a sunny Thursday. <b>2013</b> , 28, 285-6	3
2161	Early menarche and depressive symptoms from adolescence to young adulthood in a UK cohort. <b>2013</b> , 52, 591-8.e2	30
2160	Leukocyte telomere length and the father's age enigma: implications for population health and for life course. <i>International Journal of Epidemiology</i> , <b>2013</b> , 42, 457-62	7.8 54
2159	Prenatal alcohol exposure and childhood balance ability: findings from a UK birth cohort study. <b>2013</b> , 3,	9
2158	Psychosocial and educational outcomes of weight faltering in infancy in ALSPAC. <b>2013</b> , 3,	6

2157	A population-based cross-sectional study of the association between facial morphology and cardiometabolic risk factors in adolescence. <b>2013</b> , 3,		8
2156	Depression and blood pressure in high-risk children and adolescents: an investigation using two longitudinal cohorts. <b>2013</b> , 3, e003206		10
2155	Physical activity during pregnancy and offspring cardiovascular risk factors: findings from a prospective cohort study. <b>2013</b> , 3, e003574		3
2154	Distinct relationships of intramuscular and subcutaneous fat with cortical bone: findings from a cross-sectional study of young adult males and females. <b>2013</b> , 98, E1041-9		17
2153	Associations of maternal 25-hydroxyvitamin D in pregnancy with offspring cardiovascular risk factors in childhood and adolescence: findings from the Avon Longitudinal Study of Parents and Children. <b>2013</b> , 99, 1849-56		26
2152	Cohort Profile: the Avon Longitudinal Study of Parents and Children: ALSPAC mothers cohort. <i>International Journal of Epidemiology</i> , <b>2013</b> , 42, 97-110	7.8	1272
2151	Defective processing speed and nonclinical psychotic experiences in children: longitudinal analyses in a large birth cohort. <b>2013</b> , 170, 550-7		36
2150	Association between maternal depressogenic cognitive style during pregnancy and offspring cognitive style 18 years later. <b>2013</b> , 170, 434-41		30
2149	Prenatal alcohol exposure and offspring cognition and school performance. A 'Mendelian randomization' natural experiment. <i>International Journal of Epidemiology</i> , <b>2013</b> , 42, 1358-70	7.8	66
2148	Genetic determinants of trabecular and cortical volumetric bone mineral densities and bone microstructure. <b>2013</b> , 9, e1003247		87
2147	Mining the human phenome using allelic scores that index biological intermediates. <b>2013</b> , 9, e1003919		58
2146	Trajectories of socioeconomic inequalities in health, behaviours and academic achievement across childhood and adolescence. <b>2013</b> , 67, 358-64		31
2145	Prenatal exposures and anti-Mullerian hormone in female adolescents: the Avon Longitudinal Study of Parents and Children. <b>2013</b> , 178, 1414-23		17
2144	Common variants in left/right asymmetry genes and pathways are associated with relative hand skill. <b>2013</b> , 9, e1003751		112
2143	Dependence of deodorant usage on ABCC11 genotype: scope for personalized genetics in personal hygiene. <b>2013</b> , 133, 1760-7		14
2142	Prenatal methylmercury exposure and genetic predisposition to cognitive deficit at age 8 years. <b>2013</b> , 24, 643-50		41
2141	Coordinated genetic scaling of the human eye: shared determination of axial eye length and corneal curvature. <b>2013</b> , 54, 1715-21		20
2140	Estimating trajectories of energy intake through childhood and adolescence using linear-spline multilevel models. <b>2013</b> , 24, 507-15		13

2139	The Society for Social Medicine John Pemberton Lecture 2011. Developmental overnutrition--an old hypothesis with new importance?. <i>International Journal of Epidemiology</i> , <b>2013</b> , 42, 7-29	7.8	87
2138	Hypertensive disorders of pregnancy and cardiometabolic health in adolescent offspring. <b>2013</b> , 62, 614-20		106
2137	Genetic influences on trajectories of systolic blood pressure across childhood and adolescence. <b>2013</b> , 6, 608-14		24
2136	On the cause of offence. <i>International Journal of Epidemiology</i> , <b>2013</b> , 42, 1203-1210	7.8	1
2135	Growth outcomes of weight faltering in infancy in ALSPAC. <b>2013</b> , 131, e843-9		14
2134	Association of maternal smoking with child cotinine levels. <b>2013</b> , 15, 2029-36		14
2133	Prenatal maternal depression symptoms and nutrition, and child cognitive function. <b>2013</b> , 203, 417-21		90
2132	Early life socio-economic position and later alcohol use: birth cohort study. <b>2013</b> , 108, 516-25		33
2131	Dimensions of parental alcohol use/problems and offspring temperament, externalizing behaviors, and alcohol use/problems. <b>2013</b> , 37, 2118-27		34
2130	Childhood conduct disorder trajectories, prior risk factors and cannabis use at age 16: birth cohort study. <b>2013</b> , 108, 2129-38		43
2129	The duration and timing of maternal depression as a moderator of the relationship between dependent interpersonal stress, contextual risk and early child dysregulation. <b>2013</b> , 43, 1587-96		41
2128	Antibiotic exposure in the first two years of life and development of asthma and other allergic diseases by 7.5 yr: a dose-dependent relationship. <b>2013</b> , 24, 762-71		80
2127	Pregnancy and birth cohort resources in europe: a large opportunity for aetiological child health research. <b>2013</b> , 27, 393-414		157
2126	Diet quality of U.K. infants is associated with dietary, adiposity, cardiovascular, and cognitive outcomes measured at 7-8 years of age. <b>2013</b> , 143, 1611-7		37
2125	If data could talk back: Anzia Yeziarska, Paul de Kruijff and thousands of pages of 'research'. <i>International Journal of Epidemiology</i> , <b>2013</b> , 42, 1-6	7.8	12
2124	Pre-school hyperactivity/attention problems and educational outcomes in adolescence: prospective longitudinal study. <b>2013</b> , 203, 265-71		56
2123	Height-based Indices of Pubertal Timing in Male Adolescents. <b>2013</b> , 7, 105-116		7
2122	Testing a capacity-load model for hypertension: disentangling early and late growth effects on childhood blood pressure in a prospective birth cohort. <b>2013</b> , 8, e56078		24

2121	Environmental factors predicting blood lead levels in pregnant women in the UK: the ALSPAC study. <b>2013</b> , 8, e72371	52
2120	Effect of prenatal alcohol exposure on childhood academic outcomes: contrasting maternal and paternal associations in the ALSPAC study. <b>2013</b> , 8, e74844	36
2119	Does docosahexaenoic acid supplementation in term infants enhance neurocognitive functioning in infancy?. <b>2013</b> , 7, 774	16
2118	Improving prediction algorithms for cardiometabolic risk in children and adolescents. <b>2013</b> , 2013, 684782	15
2117	Associations of maternal iron intake and hemoglobin in pregnancy with offspring vascular phenotypes and adiposity at age 10: findings from the Avon Longitudinal Study of Parents and Children. <b>2014</b> , 9, e84684	13
2116	Glue ear, hearing loss and IQ: an association moderated by the child's home environment. <b>2014</b> , 9, e87021	12
2115	Personality, behavior and environmental features associated with OXTR genetic variants in British mothers. <b>2014</b> , 9, e90465	23
2114	Prevalence of chlamydia in young adulthood and association with life course socioeconomic position: birth cohort study. <b>2014</b> , 9, e104943	7
2113	Testosterone trajectories and reference ranges in a large longitudinal sample of male adolescents. <b>2014</b> , 9, e108838	30
2112	Grip strength across the life course: normative data from twelve British studies. <b>2014</b> , 9, e113637	452
2111	Polygenic scores predict alcohol problems in an independent sample and show moderation by the environment. <b>2014</b> , 5, 330-46	58
2110	Exploring the associations between sleep problems and chronic musculoskeletal pain in adolescents: a prospective cohort study. <b>2014</b> , 19, e139-45	37
2109	Analysis of Partially Observed Clustered Data using Generalized Estimating Equations and Multiple Imputation. <b>2014</b> , 14, 863-883	59
2108	Association between pre- and perinatal exposures and Tourette syndrome or chronic tic disorder in the ALSPAC cohort. <b>2014</b> , 204, 40-5	55
2107	Prenatal screening for major congenital heart disease: assessing performance by combining national cardiac audit with maternity data. <b>2014</b> , 100, 375-82	50
2106	Facial fluctuating asymmetry is not associated with childhood ill-health in a large British cohort study. <b>2014</b> , 281,	45
2105	Prepubertal start of father's smoking and increased body fat in his sons: further characterisation of paternal transgenerational responses. <b>2014</b> , 22, 1382-6	101
2104	Associations between objectively measured physical activity and academic attainment in adolescents from a UK cohort. <b>2014</b> , 48, 265-70	97

2103	Lack of association between DRD2 and OPRM1 genotypes and adiposity. <b>2014</b> , 38, 730-6	27
2102	'Big data' reporting guidelines: how to answer big questions, yet avoid big problems. <b>2014</b> , 96-B, 1575-7	19
2101	Cis and trans effects of human genomic variants on gene expression. <b>2014</b> , 10, e1004461	92
2100	A population-based study of genetic variation and psychotic experiences in adolescents. <b>2014</b> , 40, 1254-62	59
2099	Clinical and social outcomes of adolescent self harm: population based birth cohort study. <b>2014</b> , 349, g5954	137
2098	The anthropometry of children and adolescents may be influenced by the prenatal smoking habits of their grandmothers: a longitudinal cohort study. <b>2014</b> , 26, 731-9	32
2097	Phenotypic dissection of bone mineral density reveals skeletal site specificity and facilitates the identification of novel loci in the genetic regulation of bone mass attainment. <b>2014</b> , 10, e1004423	107
2096	Assessing causality in the association between child adiposity and physical activity levels: a Mendelian randomization analysis. <b>2014</b> , 11, e1001618	112
2095	Effects of BMI, fat mass, and lean mass on asthma in childhood: a Mendelian randomization study. <b>2014</b> , 11, e1001669	70
2094	Developmental profiles of eczema, wheeze, and rhinitis: two population-based birth cohort studies. <b>2014</b> , 11, e1001748	140
2093	Growth trajectories in the children of mothers with eating disorders: a longitudinal study. <b>2014</b> , 4, e004453	8
2092	Sleep patterns in children with autistic spectrum disorders: a prospective cohort study. <b>2014</b> , 99, 114-8	96
2091	Is the growth of the child of a smoking mother influenced by the father's prenatal exposure to tobacco? A hypothesis generating longitudinal study. <b>2014</b> , 4, e005030	9
2090	Validating childhood asthma in an epidemiological study using linked electronic patient records. <b>2014</b> , 4, e005345	34
2089	Associations of childhood 25-hydroxyvitamin D2 and D3 and cardiovascular risk factors in adolescence: prospective findings from the Avon Longitudinal Study of Parents and Children. <b>2014</b> , 21, 281-90	18
2088	The association of maternal prenatal psychosocial stress with vascular function in the child at age 10-11 years: findings from the Avon longitudinal study of parents and children. <b>2014</b> , 21, 1097-108	12
2087	Evaluating the role of a galanin enhancer genotype on a range of metabolic, depressive and addictive phenotypes. <b>2014</b> , 165B, 654-64	4
2086	Effects of simulated interventions to improve school entry academic skills on socioeconomic inequalities in educational achievement. <b>2014</b> , 85, 2247-62	19

2085	Robustness of the linear mixed effects model to error distribution assumptions and the consequences for genome-wide association studies. <b>2014</b> , 13, 567-87	14
2084	Dairy intakes at age 10 years do not adversely affect risk of excess adiposity at 13 years. <b>2014</b> , 144, 1081-90	23
2083	Ankylosing spondylitis is associated with the anthrax toxin receptor 2 gene (ANTXR2). <b>2014</b> , 73, 2054-8	19
2082	Assessing eating disorder symptoms in adolescence: is there a role for multiple informants?. <b>2014</b> , 47, 475-82	19
2081	The effects of maternal eating disorders on offspring childhood and early adolescent psychiatric disorders. <b>2014</b> , 47, 385-93	26
2080	A decomposition analysis of the relationship between parental income and multiple child outcomes. <b>2014</b> , 177, 757-782	15
2079	Genome-wide screening for DNA variants associated with reading and language traits. <b>2014</b> , 13, 686-701	78
2078	Alcohol Exposure and Child Academic Achievement. <b>2014</b> , 124, 634-667	28
2077	Tracking a dietary pattern associated with increased adiposity in childhood and adolescence. <b>2014</b> , 22, 458-65	62
2076	Exploring the indirect effects of catechol-O-methyltransferase (COMT) genotype on psychotic experiences through cognitive function and anxiety disorders in a large birth cohort of children. <b>2014</b> , 165B, 410-20	1
2075	Ophthalmic abnormalities in children with developmental coordination disorder. <b>2014</b> , 56, 164-70	16
