

CITATION REPORT

List of articles citing

Risk of childhood undernutrition related to small-for-gestational age and preterm birth in low- and middle-income countries

DOI: 10.1093/ije/dyt109

International Journal of Epidemiology, 2013, 42, 1340-55.

Source: <https://exaly.com/paper-pdf/56384863/citation-report.pdf>

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

- 19 Complementary and alternative metrics for tracking population-level trends in child linear growth. **2023**, 3, e0001766 ○
- 18 Anthropometric criteria for best-identifying children at high risk of mortality: a pooled analysis of twelve cohorts. **2023**, 26, 803-819 ○
- 17 Fortified balanced energy-protein supplementation during pregnancy and lactation and infant growth in rural Burkina Faso: A 2x2 factorial individually randomized controlled trial. **2023**, 20, e1004186 ○
- 16 Association of Prenatal Placental Function with Anthropometry and Body Composition through 2 years of Age in South African Infants: The UmbiBaby Study. **2023**, 153, 958-969 ○
- 15 YTHDC1 maintains trophoblasts function by promoting degradation of m6A-modified circMPP1. **2023**, 210, 115456 ○
- 14 Maternal Dietary Diversity and Birth Weight in Offspring: Evidence from a Chinese Population-Based Study. **2023**, 20, 3228 ○
- 13 Relationship between low birth weight and infant mortality: evidence from National Family Health Survey 2019-21, India. **2023**, 81, ○

- 12 Causes of death in children with congenital Zika syndrome in Brazil, 2015 to 2018: A nationwide record linkage study. **2023**, 20, e1004181 ○
- 11 Identification of anthropometric surrogate measurements and their cut-off points for the detection of low birth weight and premature newborn babies using ROC Analysis. **2023**, 12, ○
- 10 Association between maternal postpartum depressive symptoms, socioeconomic factors, and birth outcomes with infant growth in South Africa. **2023**, 13, ○
- 9 Assessing the hidden burden and costs of COVID-19 pandemic in South Asia: Implications for health and well-being of women, children and adolescents. **2023**, 3, e0001567 ○
- 8 Assessing Programme Strategies in Managing Child Stunting at the Health Facility Level in Matelile Community Council. **2023**, 3, 43-59 ○
- 7 Determinants of length for age Z scores among children aged 6-23 months in Central Java, Indonesia: a path analysis. 10, ○
- 6 Maternal exposure to multiple mycotoxins and adverse pregnancy outcomes: a prospective cohort study in rural Bangladesh. ○
- 5 Spatial heterogeneity of low-birthweight deliveries on the Kenyan coast. **2023**, 23, ○
- 4 Association between frequency of breakfast intake before and during pregnancy and infant birth weight: the Tohoku Medical Megabank Project Birth and Three-Generation Cohort Study. **2023**, 23, ○
- 3 Facility-based care for moderately low birthweight infants in India, Malawi, and Tanzania. **2023**, 3, e0001789 ○
- 2 Inadequate dietary diversity during pregnancy increases the risk of maternal anemia and low birth weight in Africa: A systematic review and meta-analysis. ○
- 1 Vulnerable newborn types: Analysis of population-based registries for 165 million births in 23 countries, 2000-2021. ○
