

CITATION REPORT

List of articles citing

APOL1 variants associate with increased risk of CKD among African Americans

DOI: 10.1681/asn.2013010113

Journal of the American Society of Nephrology: JASN, 2013, 24, 1484-91.

Source: <https://exaly.com/paper-pdf/56469169/citation-report.pdf>

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
