

CITATION REPORT

List of articles citing

Thick subcategories over Gorenstein local rings that are locally hypersurfaces on the punctured spectra

DOI: 10.2969/jmsj/06520357

Journal of the Mathematical Society of Japan, 2013, 65, .

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
