

CITATION REPORT

List of articles citing

Usable Security: History, Themes, and Challenges

DOI: 10.2200/s00594ed1v01y201408spt011

Synthesis Lectures on Information Security Privacy and Trust, 2014, 5, 1-124.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
43	Maybe Poor Johnny Really Cannot Encrypt. 2015 ,		6
42	Usable Security IResults from a Field Study. <i>I-com</i> , 2016 , 15, 203-209	1	0
