

CITATION REPORT

List of articles citing

Investigation of the optical properties of MoS₂ thin films using spectroscopic ellipsometry

DOI: 10.1063/1.4868108

Applied Physics Letters, 2014, 104, 103114.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
