

CITATION REPORT

List of articles citing

Relation between serum total bilirubin levels and severity of coronary artery disease in patients with non-ST-segment elevation myocardial infarction

DOI: 10.1177/0003319713504820
Angiology, 2014, 65, 245-9.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
