

# CITATION REPORT

List of articles citing

**The Renin-Angiotensin-aldosterone system in vascular inflammation and remodeling**

**DOI: 10.1155/2014/689360**

**International Journal of Inflammation, 2014, 2014, 689360.**

**Source:** <https://exaly.com/paper-pdf/58599096/citation-report.pdf>

**Version:** 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
236	The renin-angiotensin system: a possible contributor to migraine pathogenesis and prophylaxis. <b>2014</b> , 14, 1043-55		18
235	Can renin inhibition by Aliskiren prove itself in atherosclerosis prevention?. <b>2014</b> , 237, 767-8		
234	Dermatological manifestations of stress in normal and psychiatric populations. <b>2014</b> , 37, 625-51		19
233	Fresh frozen plasma and spray-dried plasma mitigate pulmonary vascular permeability and inflammation in hemorrhagic shock. <b>2015</b> , 78, S7-S17		55
232	Diosgenin Mitigates Streptozotocin Diabetes-induced Vascular Dysfunction of the Rat Aorta: The Involved Mechanisms. <b>2015</b> , 66, 584-92		26
231	Inflammation, oxidative stress and renin angiotensin system in atherosclerosis. <b>2015</b> , 6, 209-17		198
230	Role of MicroRNAs in Renin-Angiotensin-Aldosterone System-Mediated Cardiovascular Inflammation and Remodeling. <i>International Journal of Inflammation</i> , <b>2015</b> , 2015, 101527	6.4	19
229	Emerging risk biomarkers in cardiovascular diseases and disorders. <b>2015</b> , 2015, 971453		138
228	Diabetes, Endothelial Dysfunction, and Vascular Repair: What Should a Diabetologist Keep His Eye on?. <b>2015</b> , 2015, 848272		47
227	The protective effect of lipoic acid on selected cardiovascular diseases caused by age-related oxidative stress. <b>2015</b> , 2015, 313021		38
226	Vascular smooth muscle cell in atherosclerosis. <b>2015</b> , 214, 33-50		241
225	Inflammatory markers and cardiometabolic diseases. <b>2015</b> , 70, 193-9		50
224	Giant Cell Arteritis: Beyond Corticosteroids. <b>2015</b> , 32, 591-9		4
223	The C4280A (rs5705) gene polymorphism of the renin (REN) gene is associated with risk of developing coronary artery disease, but not with restenosis after coronary stenting. <b>2015</b> , 99, 128-32		8
222	The role of oxidative stress, antioxidants and vascular inflammation in cardiovascular disease (a review). <b>2015</b> , 71, 40-56		539
221	Activation of Ebpioid receptor by U50,488H improves vascular dysfunction in streptozotocin-induced diabetic rats. <b>2015</b> , 15, 7		8
220	Qian Yang Yu Yin Granule-containing serum inhibits angiotensin II-induced proliferation, reactive oxygen species production, and inflammation in human mesangial cells via an NADPH oxidase 4-dependent pathway. <b>2015</b> , 15, 81		16

219	Differences in angiotensin (1-7) between men and women. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , <b>2015</b> , 308, H1171-6	5.2	48
218	Combined dermatan sulfate and endothelial progenitor cell treatment: action on the initial inflammatory response after arterial injury in C57BL/6 mice. <b>2015</b> , 17, 1447-64		4
217	Chronobiology and Pharmacologic Modulation of the Renin-Angiotensin-Aldosterone System in Dogs: What Have We Learned?. <b>2015</b> , 169, 43-69		19
216	Sympathetic and Renin-Angiotensin Activity in the Pathophysiology of Hypertension. <b>2015</b> , 723-749		
215	Endoplasmic Reticulum Chaperon Tauroursodeoxycholic Acid Attenuates Aldosterone-Infused Renal Injury. <b>2016</b> , 2016, 4387031		5
