List of articles citing

## The Borel cardinality of Lascar strong types

DOI: 10.1112/jlms/jdu041

Journal of the London Mathematical Society, 2014, 90, 609-633

**Source:** <https://exaly.com/paper-pdf/58663326/citation-report.pdf>

**Version:** 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
