

Impact of renal function in patients with multi-vessel coronary artery disease on all-cause mortality following coronary artery bypass grafting compared with percutaneous coronary intervention

International Journal of Cardiology

172, 442-449

DOI: [10.1016/j.ijcard.2014.01.096](https://doi.org/10.1016/j.ijcard.2014.01.096)
