

CITATION REPORT

List of articles citing

A genome-wide association study identifies CDHR3 as a susceptibility locus for early childhood asthma with severe exacerbations

DOI: 10.1038/ng.2830
Nature Genetics, 2014, 46, 51-5.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
