

CITATION REPORT

List of articles citing

Inverse association between habitual polyphenol intake and incidence of cardiovascular events in the PREDIMED study

DOI: 10.1016/j.numecd.2013.12.014

Nutrition, Metabolism and Cardiovascular Diseases, 2014, 24, 639-47.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
