

# CITATION REPORT

List of articles citing

Organic thermoelectric materials: emerging green energy materials converting heat to electricity directly and efficiently

DOI: 10.1002/adma.201305371  
Advanced Materials, 2014, 26, 6829-51.

**Source:** <https://exaly.com/paper-pdf/58952648/citation-report.pdf>

**Version:** 2024-04-10

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
