

CITATION REPORT

List of articles citing

Changing trends and the role of medical management on the outcome of patients treated for osteoradionecrosis of the mandible: experience from a regional head and neck unit

DOI: 10.1016/j.bjoms.2014.01.003

British Journal of Oral and Maxillofacial Surgery, 2014, 52, 356-62.

Version: 2024-04-16

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
