

CITATION REPORT

List of articles citing

Incidence of adverse events after high doses of onabotulinumtoxinA for multiple indications

DOI: 10.1016/j.urology.2014.07.046
Urology, 2014, 84, 1044-8.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
