

CITATION REPORT

List of articles citing

Rediscovering black phosphorus as an anisotropic layered material for optoelectronics and electronics

DOI: 10.1038/ncomms5458

Nature Communications, 2014, 5, 4458.

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
