

CITATION REPORT

List of articles citing

Tadalafil enhances the neuroprotective effects of ischemic postconditioning in mice, probably in a nitric oxide associated manner

DOI: 10.1139/cjpp-2013-0428

**Canadian Journal of Physiology and Pharmacology,
2014, 92, 418-26.**

Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
