

# CITATION REPORT

List of articles citing

Wireless pulmonary artery pressure monitoring guides management to reduce decompensation in heart failure with preserved ejection fraction

DOI: 10.1161/circheartfailure.113.001229

Circulation: Heart Failure, 2014, 7, 935-44.

**Version:** 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
