List of articles citing

Mean platelet volume levels predict pulmonary artery hypertension in patients with atrial septal defect

DOI: 10.1080/ac.69.2.3017297
Acta Cardiologica, 2014, 69, 161-6.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
