Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

| 33 | Bidirectional Relations Between Daily Stress and Sleep Among Black Emerging Adults. | | |
| 32 | Towards A Socioeconomic Model of Sleep Health among the Canadian Population: A Systematic Review of the Relationship between Age, Income, Employment, Education, Social Class, Socioeconomic Status and Sleep Disparities. 2022 , 12, 1143-1167 | | 0 |

- 31 Menopausal Symptoms and Sleep Quality in Women Aged 40-55 Years. **2022**, 2022, 1-6
- 30 Why do some people develop insomnia in response to stressful life events and others do not? ○
- 29 Pre-pandemic sleep reactivity prospectively predicts distress during the COVID -19 pandemic: The protective effect of insomnia treatment. ○
- 28 Daridorexant for the Treatment of Insomnia. **2022**, 10, ○
- 27 Emotional Dysregulation and Time Structure Mediate the Link between Perceived Stress and Insomnia among Unemployed Young People in China: A Cross-Sectional Study. **2022**, 19, 11883 ○
- 26 The cumulative effect of chronic stress and depressive symptoms affects heart rate in a working population. 13, ○
- 25 Predictors of insomnia symptoms in police employees: a longitudinal investigation and comparison of personality and psychosocial work factors. **2022**, 9, ○
- 24 Daily reactivity to stress and sleep disturbances: unique risk factors for insomnia. ○
- 23 Sleep disorders mediate the link between childhood trauma and depression severity in children and adolescents with depression. 13, ○
- 22 Pre-deployment threat learning predicts increased risk for post-deployment insomnia: Evidence from the Marine Resiliency Study. **2022**, 159, 104223 ○
- 21 Insomnia is a key risk factor for persistent anxiety and depressive symptoms: A 12-month longitudinal cohort study during the COVID-19 pandemic. **2023**, 322, 52-62 2
- 20 Life stress, insomnia, and anxiety/depressive symptoms in adolescents: A three-wave longitudinal study. **2023**, 322, 91-98 1
- 19 Linking chronic stress to insomnia symptoms in older adults: The role of stress co-occurrence during the pandemic. ○
- 18 Perseverative Cognition as a Mediator Between Perceived Stress and Sleep Disturbance: A Structural Equation Modeling Meta-analysis (meta-SEM). ○
- 17 A paraventricular thalamus to central amygdala neural circuit modulates acute stress-induced heightened wakefulness. **2022**, 41, 111824 ○
- 16 The effect of wearable-delivered sleep interventions on sleep outcomes among adults: A systematic review and meta-analysis of randomised controlled trials. ○
- 15 Stress and sleep reactivity increase risk for insomnia: highlighting the dynamic interplay between sleep-wake regulation and stress responsivity. ○
- 14 Bringing attention to friendship: moderating Effects of Mindfulness on the interpersonal model of disordered eating in adolescents. ○

- 13 Elevated insomnia symptom severity in university students: The role of sexual orientation and internalizing symptoms. 1-7 ○
- 12 Sleep disturbance during COVID-19: Correlates and predictive ability for mental health symptomatology in a Canadian online sample. **2023**, 80, 48-53 ○
- 11 Sleep Quality and Cognitive Function after Stroke: The Mediating Roles of Depression and Anxiety Symptoms. **2023**, 20, 2410 ○
- 10 Childhood Trauma and Consequential Impact on Sleep. **2023**, 1-17 ○
- 9 The sleep response to stress: how sleep reactivity can help us prevent insomnia and promote resilience to trauma. ○
- 8 Sleep problems during and after paediatric brain tumours. **2023**, 7, 280-287 ○
- 7 Which Dark Personality Traits Could Predict Insomnia? The Mediated Effects of Perceived Stress and Ethical Judgments. **2023**, 13, 122 ○
- 6 Animal models of human insomnia. ○
- 5 Adaptation and Validation of the Turkish Version of the Ford Insomnia Response to Stress Test in University Students. Volume 15, 139-149 ○
- 4 Association of Sleep Reactivity and Anxiety Sensitivity with Insomnia-Related Depression and Anxiety among City Government Employees in Japan. **2023**, 5, 167-176 ○
- 3 Sleep reactivity to stress and insomnia: sleep measures and molecular markers. **2023**, 29, 91-99 ○
- 2 Plants Alkaloids Based Compound as Therapeutic Potential for Neurodegenerative. **2023**, 2, 14-26 ○
