Variation in hospital rates of induction of labour: a population-based record linkage study

DOI: 10.1136/bmjopen-2015-008755
BMJ Open, 2015, 5, e008755.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
