

# CITATION REPORT

List of articles citing

Significant reduction of lattice thermal conductivity by the electron-phonon interaction in silicon with high carrier concentrations: a first-principles study

DOI: 10.1103/physrevlett.114.115901  
Physical Review Letters, 2015, 114, 115901.

**Source:** <https://exaly.com/paper-pdf/61308609/citation-report.pdf>

**Version:** 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
